The sheep is the most modern animal in creation. By that we mean that he has left no fossil remains in his own kind or ancestry. He is a development of the last days of creation and of about the same geological age as mankind. There is no animal on the farm that is more capable of responding to different methods of different environments than is the sheep.

He can be bred into almost anywool, or short, fine wool, horns or no horns, black or white, a big carcass for mutton, or other modifications have been produced, and all are money-makers when properly handled by the right man.
