

Colds

should be "snipped in the bud", for if allowed to run unchecked, serious results may follow.

THE FORD'S BLACK-DRAUGHT

the old reliable, vegetable liver powder. Mr. Chas. A. Ragland, Madison Heights, Va., says: "I have been using The Ford's Black-Draught for stomach troubles, indigestion, and colds, and find it to be the very best medicine I ever used."

Chamberlain's Colic, Cholera and Diarrhoea Remedy. "I advised the boys when they enlisted for the Spanish war to take Chamberlain's Colic, Cholera and Diarrhoea Remedy with them, and have received many thanks for the advice given."

Small Temptations. As swarms of noxious insects are less easily mastered than raging beasts, so is the victory over small temptations greater than that over heavy trials.

No Exchange. "I see you brought back the same umbrella you took to the banquet." "Yes, I didn't see anything better."

Luck comes to them who help themselves and know how to wait.—Max O'Ball.

BAMBOO AS PAPER MATERIAL

Experiments Being Made With the Hope That This Material May Be Found Available.

Inventors are seeking a substitute for the wood pulp in the manufacture of paper. So far various methods have been tried to produce the coarser grades of paper from corn husks, grass, reeds and other forms of vegetable life, but print paper has not yet been successfully produced from anything except wood pulp.

In the far east they are making experiments with bamboo as a possible basis for the making of pulp. Some capitalists of the Orient have gone so far as to establish factories in Siam, Burma and India, but the undertaking has not been altogether successful.

Pulp so far manufactured has had the fault of being too dark in color to bring a satisfactory price. Bamboos most of the time so far have cost \$3.41 a ton. Little of the product so far has been sold, but samples submitted in London indicate that the company may receive as high as \$58.27 a ton.

The critical feature of the entire enterprise seems to be in the matter of bleaching the pulp. Experts claim for bamboo pulp certain advantages, among which is the fact that bamboo pulp can be had in parts of the world where other pulp materials are not to be had; it produces a fine pulp which feels readily and produces a thick opaque paper of greater thickness than usual for its weight, making it especially suitable for particular varieties of paper; the fine fiber is easily digested by the ordinary sulphide process and the bamboo can readily be handled mechanically and chemically.

Engineers Laugh at Obstacles. Like the mining engineer, the building engineer now finds practically no problem in his field which he can not solve, and the question of excavating for foundations for high buildings is little more than a routine matter. Depth is no great hindrance, as has been demonstrated in New York. For the greatest office structure in the world, on the site of the Equitable building, destroyed by fire, the engineers dug and blasted far below the street, and at a depth of eighty feet found a rock bed around the entire site for the more important base of the foundation.

COTTON INSURANCE!

We are prepared to insure cotton on the farm at the following rates:

Table with 2 columns: Duration (30 days to 365 days) and Rate (70c. to 3.50 per hundred dollars).

We represent none but the best companies and a phone call or postal card will bring our Manager to see you.

BRING YOUR Job Work TO THE TIMES OFFICE.

Dinner Evidently Was a Success.

The Ladies' Aid of Buffalo gave a big chicken pie dinner at the sale in Shiel's hall last Saturday. There was a large attendance and the whole affair was a success.

High-Speed Shorthand Machine.

A new shorthand machine, called the stenotype, has made its appearance at a competition in New York. It takes down 522 words a minute and weighs eight pounds.

Cynics in Politics.

A New York reformer said at a dinner: "We have no use for the cynic—no use for the man who, having been asked to define the word 'reformer,' said: 'Reformer? Oh, he's a chap who failed to get an office out of either party.'"

Eve Not a Suffragist.

"A woman ought to stay at home attending to the dinner," said the man who resents present tendencies. "No," replied Mr. Mackintosh, "that's where the human race made its first great mistake. If Eve had been out lecturing instead of passing round the fruit, we'd have been spared an immense amount of trouble."

HIT HIGHEST MARKET PRICE

Easier Done With Grain Crops Than With Livestock—Animals Must Go When They Are Ready.

It is much easier, generally speaking, to hit the highest market price with grain crops than it is with livestock. There are various powerful interests that aim at certain seasons of the year to depreciate the price of meat products and grain.

The best plan is to qualify under the law before you begin your school, and thus take no risk.

Very respectfully, E. J. SPOWEN, County Supt. of Education.

IN ALL OUR NEIGHBORHOOD

There Is Hardly A Woman Who Does Not Rely Upon Lydia E. Pinkham's Vegetable Compound.

Princeton, Ill.—"I had inflammation, hard headaches in the back of my neck and a weakness all caused by female trouble, and I took Lydia E. Pinkham's Vegetable Compound with such excellent results that I am now feeling fine. I recommend the Compound and praise it to all. I shall be glad to have you publish my letter."

There is scarcely a neighbor around me who does not use your medicine. Mrs. J. F. JOHNSON, R. No. 4, Box 30, Princeton, Illinois.

Experience of a Nurse.

Poland, N.Y.—"In my experience as a nurse I certainly think Lydia E. Pinkham's Vegetable Compound is a great medicine. I wish all women with female troubles would use it. I took it when passing through a change of life with great results and I always recommend the Compound to all my patients if I know of their condition in time. I will gladly do all I can to help others to know of this great medicine."

—Mrs. HORACE NEWMAN, Poland, Herkimer Co., N. Y.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co., (Confidential) Lynn, Mass.

Notice.

The next examination for securing Teacher's certificates will be held at the court house in Manning, Friday October 2nd, 1914.

The examination will begin at nine o'clock, and will embrace the following subjects: arithmetic, algebra, agriculture, geography, grammar, history, physiology, pedagogy, civics and current events.

All applicants should make it a point to be on hand very early, as it frequently happens more time is needed than they have.

Every one who expects to teach school during the coming session, and who has not a valid certificate, or a diploma from an accredited college should not overlook the importance of this notice.

If you begin teaching in this county without qualifying under the law, you run the risk of having the position declared vacant.

The best plan is to qualify under the law before you begin your school, and thus take no risk.

Very respectfully, E. J. SPOWEN, County Supt. of Education.

CASTORIA

For Infants and Children In Use For Over 30 Years Always Bears Signature of Chas. H. Wittich

Notice.

Notice is hereby given that, pursuant to a Commission issued by a Secretary of State of South Carolina, constituting the undersigned a board of Supervisors, Books of Subscription to the capital stock of Savannah Western Railroad Company will be opened at the offices of Edward D. Craig, Attorney at Law, Third Floor National Loan & Exchange Bank Building, in the City of Columbia, S. C., on the 28th day of September, 1914, at 10:00 o'clock in the forenoon. The minimum capital stock to be \$100,000 divided into one thousand shares of the par value of \$100.00 each, and the minimum amount to which said capital stock may be hereafter increased to be \$1,000,000, divided into ten thousand shares of the par value of \$100.00 each.

Notice.

Notice is also given that said parties propose to ask on behalf of the proposed corporation for the power to condemn lands for rights of way and that application therefore will be made to the secretary of State of South Carolina at his office in the City of Columbia, S. C., on the 28th day of September, 1914, at 12:00 o'clock noon, the proposed route is as follows: beginning at a point at and in the towns of Estill and Lena in Goethe Township Hampton County, thence through Goethe and Peoples Townships in Hampton County, thence through Braxton and Vary Townships in Colleton County, thence through Fish Pond Township in Bamberg County, thence through Branchville, Cow Castle, Providence and Vance Townships in Orangeburg County, and thence into and through St. Paul Township in Clarendon County, to and into St. Paul in said County of Clarendon. The distance of approximately 90 miles, all in the State of South Carolina.

Notice.

Irrigated Orchard Near Montrose, Col. this superlative wood. One of the most valuable qualities of market fruit is good, attractive color. It takes light and plenty of it to make good color and the tree top with too many branches will keep out the sunlight and, consequently, will not produce well-colored fruit. In market fruit, size as well as color is important. The tree that tries to produce too many apples will be unable to bring them to a good size. Thinning the fruit will aid very materially in increasing the size, but a good deal of work in thinning can be saved by taking out some of the extra wood this winter.

G. H. MILLIGAN, VIRGIL WALKER, ADRIAN M. REA.

A NEW ROUTE

SOLID THROUGH TRAINS Between Florence, S. C. and Roanoke Va., via the Atlantic Coast Line.

Florence and Wadesboro, Winston-Salem Southbound Railway, Wadesboro and Winston-Salem, Norfolk and Western Railway, Winston-Salem and Roanoke.
