SELL TOBAGGO WITH R. D. GOTHRAN

TOBACCO!

TOBACCO!

TOBACCO!

TOBACCO!

TOBACCO!

WANTED-At Central Warehouse, up on Levi Block, in the Heart of Manning!

Say. Mr. Tobacco Grower! Do you sell any Tobacco with Cothran? If you do not, why not? Cothran is entitled to your patronage. Are you interested in the Manning Tobacco Market? If you are, you certainly should divide your Tobacco, because competition is the life of trade. I can get you as much money as any Tobacco warehouse on earth. I except none. I have already worked hard for the people that have sold Tobacco in Manning. I challenge any one of you to prove to the contrary. I want every man, white and colored, that has not already sold Tobacco with me to come and bring me a load. I am not expecting you to sell me all of your Tobacco, it would ruin the Manning market, but if you appreciate what I am doing for your market and want me to continue in business here, divide. Those of you that have not as yet, know full well that you have never had a tobacco man on the Manning market that knows the value of your Tobacco better or as worked harder for you than has Cothran. Now, Gentlemen, those of you that are selling with me know I am telling the truth. Tell your neighbor, doubting Thomas, if he happens to be one to carry part of his Tobacco to Cothran. Ask him if he ever heard Cothran sell Tobacco. I have been very much encouraged since I have been in the warehouse business to myself, but I realize that I must get the people all that sell Tobacco in our town to divide their crop if they want to keep the market up to its highest standard. Don't be misled by any one telling you they can get you more money than I can. You can brand this as being an old gag to get all your business. I have one of the best arranged and best lighted Tobacco Warehouses in town. I have F. C. Thomas' beautiful brick stables for your horses with plenty of lot room, convenient to stores and banks. Just ask anybody that sells Tobacco with me how he likes my methods. All of them will tell you to divide your business with Cothran and keep him in Manning. If you do not want but one warehouse carry it all to one man, and have a one horse market. Boys, you are compelled to agree with me. Many of you I have not been to to see this season. Don't hold this against me. I have not had a chance to get around. Come with your next lot. Below I give some prices the past week. Market opened up stronger this morning, Monday, than any time since opening.

D. R. RISER. Superintendent. OUR PRIVATE POWER PLANT.

Nature Produced It, and Science Has Never Equaled It. The most complicated manufucturing plant that ever existed is the human body as controlled under the scientific management of the brain and nervous system. No factory ever boasted a more efficient producer plant for converting fuel into energy. No plant ever had so well designed a pumping system nor one so perfect for the disposal of waste and sewage. Talk of heating and ventilating up to date or interdepartment telephone! The best that our modern science can put into our shops is crude indeed as compared with that pose that you went to a pump manufacturer with the following specifica-

Wanted, a pump with capacity of one-quarter gallen a minute to handle warm salty fluid, to work for seventy years night and day without a shutdown at the rate of seventy strokes per minute. Must be guaranteed to operate for the full period of time without repairs or adjustments, to require no attention; must have automatic control and contain its own motive power and must have a duty per million foot pounds superior to the best triple expansion high duty unit ever

made. Do you think the manufacturer would bid for the job? If he were a timid man he would probably agree with you and tell you to come around next week, meanwhile edging you toward the door before your insanity took a violent form, or if he were not afraid of lunatics he would say, "You poor bug, such a pump as you speak of never existed nor ever will except in the brain of a perpetual motion freak such as I see before me." Which shows how much he knows about it, for both you and he carry just such a pump around with you, and each of you thinks too much of your possession to sell it for any money.-John H. Van Deventer in En-

ART OF BATHING.

gineering Magazine.

To Get the Right Idea Just Inquire of Any Healthy Boy. The art of bathing has never been

fully understood. It ought to be put on its feet. Some people feel that in order to bathe it is necessary to call in the services of a physician. Others bathe at the slightest provocation-on railroad trains and when they are visiting a family of ten with only one bathroom. Such people would call for a bath anywhere-on a trolley car, on an excursion steamboat or when crossing the desert of Sahara.

Between these two extremes, the bathers and the nonbathers, there lies a vast gulf. If these people could only be brought together-by arbitration possibly-what a benefit to society! Boys are the only ones who have the right idea. No real boy likes to take a bath or to be presented with one on a marble slab. Any healthy boy will sink to any necessary moral level to avoid this. But any boy will go in swimming. In short, if there be about the batl the spirit of adventure, then the boy-whose instincts are natural-will seize the bait. Swimming in April, with the water somewhat above zero, is a joy for him which would be properly resented in a bath room. If we must bathe indoors there fore the boys ought to be in charge of the proceedings. And if they were all the mean, contemptible bathtubs would be abolished and every house would have a swimming pool. Everybody has a motorcar. Why not a swimming pool?-Life.

Sufficiently Humbled. Mrs. Mellen did not wish to offend

her new cook. "John," she said to the manservant. "can you find out without asking the cook whether the tinned salmon was all eaten last night? You see, I don't wish to ask her because she may have eaten it, and then she would feel uncomfortable," added the good soul, "If you please, ma'am," replied the man, "the new cook has eaten the tinned salmon, and if you was to say anything to her you couldn't make her feel any more uncomfortable than she is."-Christian Register.

The Place To Sell Your Tobacco.

touch."

Clark's Warehouse, Manning,

We are glad to say that all ripe tobacco is selling better than at any time this season.

Our sales are increasing daily, because we work hard to please our patrons, and they have found that MANNING is the best market in South Carolina.

We have sold tobacco in the last few days from planters who live right at other markets. They tell us that our prices are about TWO DOLLARS a hundred higher than these other markets, of course they sell in MANNING.

We want to thank our friends for the liberal patronage they are giving us.

R. D. CLARK, Prop.

CLARK'S WAREHOUSE Headquarters for high prices, Manning, S. C.
