Most merchants get more for goods at this season of the year, but we are going to show you what real values are. The general impression is that Toys and Holiday Goods will be higher this season than ever before on account of the war, but such is not the case. When you see our line and our prices you will wonder how we do it. Our answer is this: We had our buyer on the Northern markets for three weeks last summer, buying this line, most of them direct from factories, thereby saving the middle man's profit. What we save we give to you.
