GIRL COULD NOT WORK

How She Was Relieved from Pain by Lydia E. Pinkham's Vegetable Compound.

Taunton, Mass.—"I had pains in both sides and when my periods came I had to stay at home from work and suffer a long time. One day a woman came to our house and asked my mother why I was suffering. Mother told her that I suffered every month and she said, 'Why don't you buy a bottle of Lydia E. Pinkham's Vegetable Compound?' My mother bought it and the next month I was so well that I worked all the month without staying at home a day. I am in good health now and have told lots of girls about it."—Miss CLARICE MORSE, 22 Russell Street, Taunton, Mass.

Thousands of girls suffer in silence every month rather than consult a physician. If girls who are troubled with painful or irregular periods, backache, bloating, dragging-down sensations, fainting spells or indigestion would take Lydia E. Pinkham's Vegetable Compound, a safe and pure remedy made from roots and herbs, much suffering might be avoided. Write to Lydia E. Pinkham Medicine Co., Lynn, Mass. Submarine Booms Trade.

In these days with many visitors rambling around the telescope man on the Battery sea wall does a land office business. Possibly it is his description of the remarkable sights to be seen by means of his long glass that is responsible for the trade. Some of them are described on a neat canvas sign as follows: "This telescope shows Statue of Liberty, 1 1/4 miles away and 305 feet high. Also cannon, forts and soldiers on Governor's island. Liners and ships may be seen, including captains and passengers. Views 5 cents. Perhaps there is in the last sentence a subtle suggestion that the liners may be submarines; in other words, "take a last look at your friends." At any rate he never fails to call attention to passing liners which mount guns for defense against submarine guns, demanding that passers-by take this chance of getting a good look at the guns mounted on the stern. This is a never-failing attraction nowadays and means a fresh shower of nickels for the telescope man.—New York Times.

Dry Plates.

On a recent evening during a rain-storm, and while the downpour was heaviest, a man dropped one of numerous packages he was carrying, just as he crossed Meridian street, near the public library, and passed on unaware of his loss. The incident was witnessed by many persons who had sought the shelter in the entrance to the library, and by many others watching the storm from the windows of the Board of Trade building. For fully ten minutes it lay in the rain, seemingly an object of much curiosity to those who had seen it tumble from the man's arms. Then a young man in the Board of Trade building, urged on by his fellow-employees, braved the torrent, and snatching the package under his coat, rushed back to his office, the others crowding round him while he hastily removed the rain-soaked package to inspect his find. This is what he read: "Photographic dry plates.—Keep in dry place."—Indianapolis News.
