CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. NOTICE FROM THE AGRICULTURAL DEPARTMENT

To Farmers, Bankers and Business Men in the South.

Safety.

For nearly three years I have done my best to warn you to prepare for the present emergency. For years we have tried to encourage diversification in the South as a bisas for greater safety, both agricultural and economic. Since the war began in Europe we have urged Safe Farming. When prices were low you did well and made great progress. When cotton went to eighteen cents and over you made large profits because of your progress in Safe Farming, but some were tempted to go back to cotton. In common with many other men, I have tried to warn you of that danger. Cotton has not been high but has only increased in somewhat less proportion than food and feed.

Now the Crisis is Here! This great Nation must arouse herself for a mighty struggle for liberty. People without food and armies without rations are conquered before they can begin to fight. Our greatest safety now lies in Food Production and in saving the waste products.

If the South is to be Strong she must have Food. If this country is to be Strong she must be well fed and have an abundance to sustain those friendly people who are even now fighting our battles for liberty and democracy.

Transportation may be disturbed. Your own defense requires you to Produce and Conserve your Food supply. Don't Fail Now! It is a National problem of defense as important as men and guns, ships and cannon.

Business Men, if seed is short canvass the situation like patriots and get the seed for farmers. Arrange the credits. Furnish farmers seed corn, soy beans, cowpeas, velvet beans, peanuts, sorghum, etc., at cost. See that all things necessary to help farmers are done. Of course, we must produce cotton, but with a moderate acreage and a good season there will be enough. Do not sacrifice acres of Food to increase your acreage in cotton. Look Ahead! Get the warehouses, the feed mills, shellers, cleaning stations, creameries, packing plants, etc. ready. You must do your share and cooperate with farmers. They must do their share and tend the crops faithfully.

Farmers, in your Unions, clubs and other organizations, resolve to Use the Best Methods now. When the Nation faces a crisis we must have the best farming in its history. Labor is short, hence the best tools and all labor-saving devices must be used to make it possible for every farm laborer to cover as much ground as possible and do the most efficient work. Farm women and girls have important work to do in the garden, the orchard, in raising poultry, and especially in canning, preserving and conserving our food supply.

Your County Agent and Home Demonstration Agent become more important officers now than ever before. Your State Extension Division at the Agricultural College will have

still more important duties. Look to these for counsel and advice in this new burden of extra work. The County Agent will, without doubt, have new duties and responsibilities in the near future.

Farmers and Business Men, save the breeding stock. Don't sell cows, heifers, mares, sows, gilts, ewes, or hens. Keep them for breeding. If the breeding stock is sold where will you get the means to supply the meat of this country?

Let us forget all past difficulties and join in a mighty effort to feed the South. What can you do in the next sixty days?

Respectfully yours,
Bradford Knapp, Chief.

WAR DEPARTMENT'S ORDER

Those Married Recently Will Be Treated on Same Basis as Unmarried.

Washington, April 19.—Men of military age who have married since a state of war against Germany was declared will not escape military service under a War Department policy formally announced today. The department's statement follows:

"The War Department announces that all men married since the outbreak of war will be treated upon the same basis as unmarried men insofar as their military obligations are concerned. It is desired that the utmost publicity be given by the press to this announcement."

The department was moved to take this action in order that all men should understand exactly what is contemplated in the organization of an army to fight Germany. It was desired that there should arise no question of slackers upon the score of marriages contracted since the outbreak of war with the possible construction that the marriage in any case was hastened in order that military duty might be evaded.

FIRST TO FALL FIGHTING UNDER AMERICAN FLAG

Edmond Genet, American Aviator, Killed in Battle in France.

Paris, April 19.—Edmond C. C. Genet, the American aviator whose death was officially announced today, was the first American to die in France fighting under the American flag. Genet, who was a grandson of former Governor Clinton, of New York, Genet, French minister to the United States in Revolutionary times, was killed near Ham while escorting Sergt. Raoul Lufberry. Genet was known as a daring and skilful flyer and was very popular on account of his cheery and optimistic nature. His home was in Ossining, N. Y.

GEORGETOWN TO BUILD SHIPS FOR UNCLE SAM

Capt. Juell Reports Contracts to Construct Ten Submarine Chasers.

Georgetown, April 19.—Georgetown is agog over possibilities of ship-building plants coming here. Capt.

C. S. Juell, who has an option on the McQuade property at the foot of Front street, today wired the Georgetown Times: "The Georgetown Ship-building Corporation has been formed and has a signed contract with the government to build ten submarine chasers at \$49,500, each."

From another source comes information of possibilities being launched, contracting to build wooden vessels under government contract of about 2,000 tons displacement. Every facility for fostering enterprises is being cheerfully offered by city and commercial bodies.
