day, this being the second time in  
about two weeks. Yesterday about  
half past twelve, while Mrs. Jenkin-  
son and the cook were in the kitchen  
they detected the odor of smoke, and  
at once went into the front of the  
house to investigate. When they  
opened the bath room door, they dis-  
covered this room on fire. The alarm

back to the fire and when he saw  
the dogs on his trail he broke away  
from the crowd and ran. The loss  
to Col. Wilson will total about \$7,000

We understand a few citizens held  
a meeting one evening last week to  
discuss the morals, etc., of our town.  
The only thing that we have heard  
they did was to appoint a committee  
to request all places that run slot  
machines and punch boards to dis-  
continue them. Now, this does very  
well, but there are other things going  
on here that would make a slot ma-  
chine or punch board look shame.  
Why not rid the town of all evil  
doings? And not merely stop at a  
little insignificant punch board. And  
too, since they are showing so much  
interest in the good of the town by  
wanting it cleaned out, why not ap-  
point a committee to trim up the  
grove of weeds that are so flourishing  
and also fill in a few holes on our  
Main street that have been with us  
since long before a punch board ever  
came to our town. There is no doubt  
the whole town needs a shaking up,  
and since a few have started the ball,  
let's continue to shake while the shak-  
ing is good.

### ITALIANS MARCHING ON

Austrian Counter-Attacks Fail to Re-  
cover Positions.

Reme, Aug. 28.—The Italians made  
further progress yesterday on the  
Banizza plateau, on the front north  
of Gorizia, the war office announces.  
The Austrians made violent counter-  
attacks, but failed to recover posi-  
tions taken by the Italians.

The announcement was:

"On the whole ba front there  
were artillery actions principally yes-  
terday. On the Banizza plateau our  
troops, continuing their progress, have  
been in closer contact with the en-  
emy. Vigorous local attacks assured  
for us some positions which the en-  
emy failed to recapture, although he  
made violent counter-attacks.

"Unfavorable atmospheric condi-  
tions greatly impeded the activity of  
our airplanes."
