

PAINS SHARP AND STABBING

Woman Thought She Would Die. Cured by Lydia E. Pinkham's Vegetable Compound.

Ogdensburg, Wis.—"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

Mrs. ERTA DORION, Ogdensburg, Wis. Physicians undoubtedly did their best, battled with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound. If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

SHOWS EMBARGO ON FOOD TO NEUTRALS WISE MOVE

Sweden's Conduct in Aiding Germany Justifies United States in Restricting Quantity of Foodstuffs Exported to "Poor Little Neutrals."

Washington, Sept. 8.—Announcement by the State Department today that Sweden has been "caught with the goods on" in conveying war messages to Germany from the German embassy in Argentina, in violation of the obligations of neutrality, is regarded here as certain to have an electrical effect on public opinion as to the justification for a strict enforce-

ment of the American foodstuffs embargo on the neutral neighbors of Germany. The timely discovery of what Sweden has been up to will prevent a great many kind-hearted Americans from being deluded by the outcries of German propagandists, that the strict application of the embargo, which is the most powerful weapon yet brought into action against the Teutonic Powers, is unnecessarily hard on "poor little neutrals."

Even though the other little neutrals may not have been doing what Sweden has been caught at, the fact of the revelation in that case is enough to demonstrate that the United States would be silly to keep on giving these little neutrals the chance to feed the big hungry Teuton stomach with American food. "This proof of Sweden's violation of neutrality is equivalent to the loss of a big battle by Germany," declared a well-informed authority here today. "It is in my opinion by far the most important piece of news published for a long time. We have just what was needed," he added.

MAY WITHDRAW DRAFT EXEMPTIONS

Washington, Sept. 8.—In line with the policy of the War Department, confided by Secretary Baker to the house military committee, to raise and organize an army of 3,000,000 by the end of next year, it was admitted at the War Department today that a number of exemptions from this draft may be later withdrawn. This applies especially to married men and other dependency exemptions.

To raise 1,500,000 men by the draft, as the War Department is said to contemplate, it probably will be necessary to recall men who were exempted from the first call. It is estimated that for the 687,000 secured by the present draft, it was necessary all over the country to examine at least 3,135,000 men. With the increasing war work and the growth of vital industries it

FORMER SHERIFF COMES OUT WITH FACTS

Prominent Man Says Money Couldn't Buy Good Tanlac Did for Him.

"COULDN'T MAKE MISTAKE"

"I Never Felt Better in My Life," Says Mr. Anderson. "A New Man Already."

"Money could not buy the good Tanlac has done me and I gladly recommend it for what it has done in my case," said Hon. Archie R. Anderson, ex-sheriff of Harris County, Texas.

Mr. Anderson is unquestionably not only one of the best known but also one of the most popular men that ever held office in Texas. After serving as a deputy sheriff of Harris County for 12 years he was elected chief of police of Houston. He had occupied this office only a short time when the sheriff of Harris County died. Mr. Anderson's friends then persuaded him to make the race for the unexpired term of sheriff, to which he easily was elected. He was honored with re-election seven different times and served the people in this most important office fifteen consecutive years. Four years ago Mr. Anderson declined re-election and retired to private life. He cast his lot among the people of Houston and is a large property owner and foremost citizen of that city.

"I was in a run down condition," continued Mr. Anderson, "and had no appetite at all. I could hardly sleep at night and did not feel like getting up in the morning I felt so tired. I had the worst form of indigestion, suffered all the time with gas on my stomach and was continually belching up undigested food. I had to take my coffee without sugar, for when I drank it with sugar I would belch for hours. I would bloat and swell up like I was poisoned and suffered with neuralgic pains of the worst sort and nothing seemed to help me except in a temporary way. I just can't tell how I did suffer in the past four years and up until a few weeks ago when I began taking Tanlac.

"When I read the testimonials of some who had been relieved of troubles like mine I felt I just couldn't make a mistake by taking Tanlac, and it has done ever more for me than I had expected. I began to feel better after taking my first bottle and I have just now started on my third and I'm a different man already. I sleep like a log now and eat just any and everything I want without the slightest discomfort afterwards. I am glad to endorse Tanlac because it does the work, and I'm telling all my friends just what I am telling you. I never felt better in my life than I do since taking Tanlac. I am willing for you to publish my statement and let every suffering person who may wish benefit by my experience with this great medicine."

was believed that even a larger percentage would rule in the next draft, as more men will be exempted for industrial causes. This throws the brunt upon the dependency exemptions and the opinion was expressed that in the next draft the regulations would be made stricter by the president in this regard. At the same time it was said that if a third draft was necessary, government officials consid-

ered it better to recall exemptions in thousands of "hairline cases" than to call upon congress for another registration of new classes in order to secure the required number of men.

It was pointed out that all exemptions except for disqualifying physical deficiencies, such as missing arms, legs and eyes, have been completely provisional and the government has the right to revoke them at any time.

BULLET-PROOF SHIRTS FOR SOLDIER BOYS

Atlanta, Ga., Sept. 8.—Mothers, sweethearts, do you want to make your soldier boy a garment that will protect him against the bitter cold of the trenches in winter, and better still, probably save his life when a bullet or fragment of shrapnel strikes him?

Of course you do. Here's how: Make him a shirt out of 25 separate layers of Japanese silk, and when a German lunges at him with a bayonet the deadly blade will fail to penetrate the seemingly thin and gauzy fabric, and your soldier boy will then have his chance to put the finishing touches on the Boshco before that worthy can extricate his weapon from the folds of the silk.

It is claimed on good authority that a shirt made of 25 layers of Japanese silk is more nearly bullet, shrapnel and bayonet proof than steel armor.

Tempus Fugit.

The Quinine That Does Not Affect the Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE. 30c.

Mrs. Poorman.—Oh, dear! I do wish we were rich. Just think of the good we could do if we only had the money.

Poorman—True, my dear; but we can do a great deal of good in a quiet way as it is.

Mrs. Poorman—Yes, but what's the use? No one would ever hear of it.
