### A CHALMERS' RECORD.

A Chalmers stock chassis on August 1 and 2 won four of the most coveted motor car records.

The endurance record, held for a year by the Hudson, has gone to the Chalmers, which went 1898 miles in 24 hours as against 1819 for the larger car.

The Chalmers also won the one hour record, the 12 hour record and the 100 mile record.

These tests were made over the Sheepshead Bay Speedway. They are official and were made with the sanction and under the observation of the American Automobile association.

Greater power, greater speed, or greater endurance has never before been demonstrated by a motor.

The strain and wear and tear of years of ordinary driving given the Chalmers in that supreme 24-hour test answers every question as to the stability of the Chalmers.

Where can you get equal value for your money? The speed a power champion for several hundred dollars less than other cars; no car in its class approaches it. These prices won't last.

You are advised to book your orders now.

Whenever You Need a General Tonic Take Grove's.

The Old Standard Grove's Tasteless chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 60 cents.

### Drives Out Malaria, Builds Up System

The Old Standard general strengthening tonic, GROVE'S TASTELESS chill TONIC, drives out Malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 60c

## HANDS, ARMS, LIMBS ASLEEP

And Was Run-Down, Weak and Nervous, Says Florida Lady. Five Bottles of Cardui Made Her Well.

Kathleen, Fla.—Mrs. Dallas Prime, of this place, says: "After the birth of my last child... I got very much run-down and weakened, so much that I could hardly do anything at all. I was so awfully nervous that I could scarcely endure the least noise. My condition was getting worse all the time..."

I knew I must have some relief or I would soon be in the bed and in a serious condition for I felt so badly and was so nervous and weak I could hardly live. My husband asked Dr. — about my taking Cardui. He said, "It's a good medicine, and good for that trouble," so he got me 5 bottles... After about the second bottle I felt greatly improved... before taking it my limbs and hands and arms would go to sleep. After taking it, however, this poor circulation disappeared. My strength came back to me and I was soon on the road to health. After the use of about 5 bottles, I could do all my house-work and attend to my six children besides."

You can feel safe in giving Cardui a thorough trial for your troubles. It contains no harmful or habit-forming drugs, but is composed of mild, vegetable, medicinal ingredients with no bad after-effects. Thousands of women have voluntarily written, telling of the good Cardui has done them. It would help you, too. Try it. B 74

### SHRINE OF THE "HOLY COAT"

Cathedral at Treves Contains One of Most Jealously Guarded Relics of the Roman Church.

At intervals of many years the old Prince Bishopric of Treves, wakens out of its half-slumbering condition and becomes the center of a great pilgrimage. Besides its numerous Roman remains, this quiet old town, claiming to be 1,300 years older than Rome, is the shrine of the "Holy Coat," one of the most jealously guarded relics in the possession of the Roman church.

The citizens of Treves are very proud of this seamless garment, and they have given it a prominent place on their coat-of-arms, says the Dundee Advertiser. It was not until 1196 that the "Holy Coat" was placed over the high altar, but it was not exposed to the public gaze for some three hundred years afterward. It was kept in a secret place of the cathedral known only to a few, and there were many who doubted its existence. A guide book of 1814 says:

"The existence of the relic at present is rather doubtful—at least, it is not visible. The attendants of the church say it is walled up." All doubts were removed in 1844, when Archbishop Arnold announced a centenary jubilee, at which it was exhibited to a million and a half of pilgrims from all parts of the world. The coat is a loose garment with wide sleeves, very simple in form, of course material, dark brown in color, probably as the result of age, and entirely without seam or decoration.

**The Conceited One.**  
"I can't bear that young leading man; he's so conceited. How do you manage to get along with him?"  
"I always talk to him about himself for a while, and then he talks to me about himself."—Life.

### MESSAGES FLOAT FOR YEARS

United States Hydrographic Office Tells of Finding of Bottle Set Adrift in 1914.

Several instances of messages in bottles having floated about the Pacific for years before being recovered have been announced by the United States hydrographic office.

A bottle was set adrift by Capt. S. Nagahue of the Tamba Maru, Japanese, August 17, 1915, 900 miles east of Kamchatka, was recovered May 15 last near Moelips, Wash. Another bottle, set adrift in December, 1914, off Cape Corrientes, Mex., was found February 22 last 240 miles north of Christmas Island, in the latitude of the Hawaiian Islands.

A third bottle, tossed from the schooner W. H. Marsten by Capt. W. Wann February 14, 1915, 2,040 miles east of Chile and 600 miles south of Easter Island, was picked up January 21 last four miles south of Wanganul Island, New Zealand.

### Clock Dials for Summer.

Instead of moving the hands of the clock forward and back at the time of changing from standard to summer time, and vice versa, a plan recently proposed in England is to have clocks provided with an adjustable dial. The circular disk of the dial would be put in place by screws in curved slots, and the dial would be rotated through one hour space at the time of making the change, leaving the hands untouched.

It is claimed that this plan is especially desirable in the case of striking-clocks, the hands of which cannot be moved back. The position of the dial would also indicate whether the clock was keeping summer or normal time. The objection to this procedure, of course, is that practically everybody tells time from position of the hands, without any attention to the figures on the dial.

### Solves Problem of Stray Whale.

Monterey, Cal., has solved the question of what to do with a stray whale that is washed up on shore. After disposing of the flesh and oil to a refinery, the bones may be mounted on shore and kept as a permanent natural history exhibit.

That is what the city officials did with a whale which was washed ashore there, according to the Popular Science Monthly. It was welcomed with open arms and the bones were saved as an educational feature for the benefit of the school children of the city and for interested adults.

Since there was no building available large enough to accommodate it, it was set up in an open lot and fenced in.
