

**DISEASE IN THE VICINITY
YOU SHOULD DISINFECT**

Here is a Program for "Disinfection Day"—Clean Up, and Do It Thoroughly—Make the Place Safe for Live Stock

Use garden sprayer for disinfecting.

In small buildings and premises the garden hand-sprayer can be used to apply the germ-killing cresol solution or other disinfectant. Such a sprayer purchased now for this purpose would be ready for anti-insect and disease work in the garden later. Compressed air sprayers of the hand type may be had in galvanized steel at \$3.50 to \$5, and in brass at \$6.50 to \$12.50. The smaller hand atomizer sprayer can be bought for 50 to 75 cents.

In any outbreak of infectious disease among animals on the farm or in the neighborhood thorough disinfection of the premises is essential in preventing its spread. Certain substances such as freshly slaked lime, or unslaked lime in powder form, chlorid of lime, carbolic acid, corrosive sublimate, formalin formaldehyde possess the power of destroying bacteria with which they come in contact. To make the use of such substance of value, however, the work must be done with the utmost thoroughness. Careless disinfection is probably worse than none if it merely serves to give a false sense of security.

In the disinfection of stables and premises the following directions should be carefully observed:

Sweep the entire interior surface, including ceilings, side walls, stall partitions, floors, etc., free of dirt and dust.

Remove all accumulations of filth by scraping, and if any woodwork has become decayed so that it is porous or absorbent it should be removed, burned, and replaced with new material.

If the floor is of earth, remove 4 inches from the surface and replace it with earth from an uncontaminated source; or if improvements are desired, a new floor of concrete may be laid, which is very durable and easily cleaned.

**Whenever You Need a General Tonic
Take Grove's.**

The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 60 cents.

All refuse material from the stable and barnyard should be removed to a place not accessible to the stock and covered with freshly slaked lime. The manure spread upon the fields should be turned under immediately.

The entire interior of the stable, especially the feeding troughs and drains, should be saturated with a disinfectant, as a 3 per cent compound solution of cresol, which would be 4 ounces of the compound to every gallon of water.

The best method of applying the disinfectant is by means of a strong spray pump, such as those used by fruit growers in spraying trees, or a small garden sprayer may be used. All mangers and feed boxes which have been sprayed should be allowed to dry, and then be washed out with hot water to prevent poisoning the stock. The spray should be applied immediately following any outbreak, and as a matter of precaution it may be used once or twice yearly.

All stables, like houses should have ample window space in order to admit a plentiful supply of sunlight and fresh air, in themselves among the most powerful disinfectants known. Most disease germs thrive in dampness, dirt, and darkness, and a clean, dry stable presents the most unfavorable conditions for their development. For this reason good drainage is also essential in the stable and about the barn lot.

TAKE CARE OF THE MILK

Here are ten suggestions which milk consumers could employ, not only to conserve the supply, but to guarantee a more wholesome product for the family:

1. Buy only the best milk obtainable. It is the cheapest in the long run.
2. Consult the health department before selecting your milk dealer.
3. Buy only bottled milk if possible. Dipped milk is often dirty and deficient in cream.
4. Take milk into the house as soon as it is delivered, and place it in the refrigerator immediately. Bacteria increases rapidly in milk which stands in the sun or warms up, and such milk will sour quickly.
5. Keep milk in the original bottle in the refrigerator until the moment of serving. Milk which has been poured from the bottle should not be returned to it.
6. Keep the bottle covered with a paper cap or an inverted tumbler, to prevent the entrance of flies and dust, which may carry dangerous bacteria into the milk.
7. Keep the refrigerator clean and sweet by means of proper drainage and frequent washing with scalding

water and sal soda, since milk quickly absorbs unpleasant odors and becomes less palatable.

8. Wash milk bottles as soon as emptied, by rinsing first with lukewarm water and then with hot water. If there is an infectious disease in your house, do not return any bottles except with the knowledge of the health department and under conditions which it may prescribe.

9. Return empty bottles promptly, and do not use them for anything except milk. Remember that they are the property of the dealer and represent cash.

10. Remember that clean milk, properly cared for, is one of the best foods obtainable. It is nourishing, digestible and usually economical.

**LABOR WILL SHOW
ITS LOYALTY**

Plan to Make Lincoln's Birthday Occasion for Arousing Nation's Best Spirit

New York, Jan. 6—America is to witness a monster labor loyalty demonstration the week of Lincoln's birthday, beginning February 10. This was learned today through a proclamation issued by Samuel Gompers, president, and a statement by Robert Maisel, director of the American Alliance for Labor and Democracy.

President Gompers' proclamation was issued to all local branches of the alliance and to all central labor bodies affiliated with the American Federation of Labor throughout the United States. The alliance's executive acted through Mr. Gompers in planning for the demonstration.

Millions of pieces of loyalty literature are to be distributed and meetings held from coast to coast during the loyalty campaign. Mass meetings, probably exceeding 500 in number will be held on Lincoln's birthday, February 12. Some localities are expected to organize demonstrations which will continue through the week.

"We plan to make the loyalty week demonstration one of the most powerful blows yet dealt at enemy propaganda in America," declared Director Maisel tonight. The proclamation by President Gompers and the executive council explains the reason and the purposes of the proposed demonstration and we have every reason to expect the fullest co-operation, not only of the local branches of the alliance, but of the whole organized labor movement. We plan also to make a big national drive for membership during the week, in order that work may go on after February 16 with increased vigor."

A Call to Unions

President Gompers' proclamation read in part:

"It is fitting upon every proper occasion the loyalty of Americans to our country and our government should be made manifest, not as a matter of empty show, but as a recurring demonstration of the solidarity of the people of our nation in this great war.

"That we may the more thoroughly and effectively demonstrate our solidarity and our unity in behalf of our republic, the executive council of the American Alliance for Labor and Democracy has directed that the week of Lincoln's birthday be observed as a loyalty week, and I hereby call upon the working people of America to participate in the observance of the week beginning Sunday, February 10, as Labor Loyalty Week, for the purpose of demonstrating labor's intense loyalty to America. For the purpose of increasing and intensifying that loyalty.

"It is requested that all branches of the alliance, in co-operation with all local bodies of organized labor, arrange and hold mass meetings on Lincoln's birthday, February 12, and that they distribute patriotic literature and make use of every opportunity to spread the inspiring message of America's aims and ideals among their fellow citizens."

BELIEVE MAN IS HELD FOR RANSOM

Cleveland, O., Jan. 7.—Cleveland police today believe Frank B. Smith, wealthy dealer in automobiles, has been kidnapped, and is being held for ransom. Smith has been missing since Thursday.

Smith, who was active in prosecuting two men on a criminal charge here, may have been kidnapped for revenge.

A letter scrawled on wrapping paper, received by Mrs. Smith, follows: "Bring \$1,000 to stop No. 10, Lakeshore Electric, Sunday night at 1 o'clock. Your husband is O. K. Keep your mouth shut."

ADVERTISE IN THE TIMES.

For Indigestion, Constipation or Biliousness

Just try one 50-cent bottle of LAX-FOS WITH PEPSIN. A Liquid Digestive Laxative pleasant to take. Made and recommended to the public by Paris Medicine Co., manufacturers of Laxative Bromo Quinine and Grove's Tasteless Chill Tonic.

**WE SELL ONLY
RELIABLE
GOODS**

HONEST GOODS AT HONEST PRICES HAVE MADE OUR BUSINESS GROW. WE ARE GOING TO STAY IN BUSINESS HERE. WE KNOW THAT GIVING BIG VALUE FOR YOUR MONEY WILL BUILD OUR BUSINESS BIGGER. WE WANT TO DO A BIG VOLUME OF BUSINESS AT LITTLE PROFITS RATHER THAN A LITTLE VOLUME AT BIG PROFITS. BUY YOUR GOODS FROM US FOR ONE WHOLE SEASON AND YOU WILL NEVER GO ANYWHERE ELSE TO TRADE.

Dickson's Drug Store,

PHONE 61. MANNING, S. C.

"Time tells what you did yesterday. Make to-morrow better by starting a Bank account to-day."

If, for no other reason than the unforeseen demands incident to human life, you owe yourself a Bank Account.

THE BANK OF MANNING

She joined our CHRISTMAS BANKING CLUB with 5¢ next Xmas she will have \$63.75

Our Christmas Banking Club is for everyone; Girls and Women, Men and Boys, the Children and the Baby

You can start with 10 cents, 5 cents, 2 cents, or 1 cent and increase your deposit the same amount each week.

In 50 Weeks:

- 10 cent Club pays \$127.50
- 5 cent Club pays \$63.75
- 2 cent Club pays \$25.50
- 1 cent Club pays \$12.75

Or, you can make the largest payment first and decrease your payments each week.

Or you can pay in 50 cents, \$1.00 or \$5.00 or more each week and in 50 weeks have \$25.00, \$50.00 or \$250.00.

Join yourself and have every member of your family do so, too.

We add 4 per cent interest.
