### THE WAR FINANCE CORPORATION

The bill recently introduced in Congress for the creation of the "War Finance Corporation" with a capital stock of five hundred million dollars, all of which is to be subscribed by the United States, should be regarded, says Secretary of the Treasury McAdoo, primarily as a measure to enable the banks, both national and State banks and trust companies, to continue to furnish essential credits for industries and enterprises necessary or contributory to the prosecution of the war.

The Government has made and is making through the Liberty Loans such large demands upon the lendable capital of the country that the banks often have been prevented from giving needed help to private enterprises, some of which are performing vital service in connection with the war.

The War Finance Corporation is designed as a war measure to give relief from this condition during the period of the war and Secretary McAdoo asserts that the mere existence of the corporation would of itself do so much to maintain confidence that its actual aid would be necessary only in relatively few cases.

This is no hastily conceived legislation. Secretary McAdoo has taken the most expert advice available and the methods adopted in the other countries at war have been thoroughly studied. The proposed law embodies the basic principles of similar laws which have been tried in Europe. Its purpose is to attain the most efficient use of our country's tremendous financial resources for the Government and for private enterprises, which are all necessary to the welfare of the country and our success in this war.

#### ALL AMERICANS CAN SERVE

Every man, woman and child in this country, who wants to serve the country, can serve it in a very simple and effective way, Secretary McAdoo says. That service is to lend your money to the government. Every 25 cents loaned to the Government is a help at this time and practically every man, woman and child by making some trifling sacrifice, some denial of a pleasure, or giving up some indulgence, can render the Government that support.

Every 25 cents will do something to help a wounded American soldier, wounded fighting for the American people and American liberty. Every cent loaned the Government contributes something for the safety and strength and success of our soldiers and sailors, equipping them, maintaining them, clothing them, feeding them, and giving them artillery and ammunition and all things needed for their efficiency and triumph.

The Secretary of the Treasury says this question is before every American—"Are you willing to help the fighting men of our nation, and in helping them to help yourselves? Are you willing in helping them and helping yourselves to make liberty supreme throughout the world and to make the atrocities, the infamous and unspeakable crimes against civilization committed by Germany impossible forever in the future?"

### THE GOVERNMENT AND THE FARMER

In his message of January 31 to the farmers of America, President Wilson points out the great governmental agencies and instrumentalities in the field of agriculture.

Our Department of Agriculture, he states, is the greatest practical and scientific organization in the world and its total annual budget of four to six million dollars has been increased during the last four years more than 72 per cent. Its staff numbers 18,000 and includes many highly trained experts. The agricultural colleges and experiment stations of the country have a total endowment of plant equipment of \$172,000,000 and an annual income of more than \$35,000,000. Ten thousand two hundred and seventy one teachers with 125,000 students, together with a vast number receiving instruction at their homes, evidence what is being done in the way of agricultural training, and to these may be added the 255 men and women working under the Smith-Lever Act.

The banking legislation of the last two or three years, the President shows, has given the farmers access to the great lendable capital of the country, and through the Federal Reserve banking system and the Farm Loan banking system farmers can obtain the credit, both short and long term, to which they are entitled and which it is imperatively necessary should be extended to them to enable them to perform adequately the tasks the country now requires of them.

The president touches on another aspect of the relations between the farmers and the Nation—"The toil, the intelligence, the energy, the foresight, the self-sacrifice, and devotion of the farmers of America will, I believe, bring to a triumphant conclusion this great war."

### LIBERTY LOAN ESSAY CONTEST

The National Committee of Patriotic Societies during the Second Liberty Loan campaign instituted a prize essay contest on the subject: "There should be a Liberty Bond in every home."

More than three thousand essays were submitted and the first prize, a Fifty dollar Liberty Loan bond, was awarded to Morris Wolf, of the Business High School, Washington, D. C. Other contestants ranking high in order of excellence were the Dunbar High School of Washington, the Joliet (Ill.) High School, the McKinley Manual Training School of Washington, the Gilman School, Roland Park, Md., the Northwestern Military Academy, Wisconsin, the Deerfield High School of Highland Park, Ill., the Eastern High School of Washington, and the Hindman Settlement School of Kentucky.

The essays were limited to 600 words and every school competing was required to have a campaign for the sale of Liberty Bonds. The total sale of bonds resulting from these campaigns went into the millions. The Gillman Country School of Maryland led the list, purchasing \$60,000 worth of bonds.

The National Committee of Patriotic Societies, which has its headquarters in Washington, will hold a similar contest during the Third Liberty Loan campaign and hopes to have every high school in the United States competing.
