The personnel of a group of men who will carry expert advice and material aid along with America's expression of disinterested friendship to the Russian people is being discussed.

Police Protection

Ample police protection is expected to be afforded them, but all show of military force will be avoided. Officials were reluctant to discuss this phase of the situation, realizing that Germany would seize upon it as a means of distorting the intenetions of the United States.

United States consuls in Russia will give active assistance in the work of reconstruction and to this extent only will the aid bear an official aspect.

Today's startling news dispatches dealing with conditions in Russia made no change in the plans already formulated. Re-establishment of business order is believed to be the best method of enabling the Russians themselves to combat the menace of Germany.

Back to Monarchy
The reported fall of the Bolshevik Government was regarded by some officials as being directly precipitated by the reported assassination of former Czar Nicholas. Official dispatches for some time have indicated a swinging back of the pendulum of public sentiment towards a monarchical form of government. Grand Duke Nicholas is believed likely to rule with a firm hand if he is able to seize the government. government.

Early Action The need for early action in Russia also has been emph-sized in recent official dispatches, telling of the activities of Germans in Siberia, After freeing and arming Germans taken prisoner by the Russians in the war the German invaders have proceeded to carry out systematically and with Teutonic thoroughness their system of stripping the country of everything valuable as was done in Belgium and Northern France.

Urges Army of 5,000,000

In the final effort of those advocating immediate legislation, Senator McCumber advocated immediate organization of an army of five million which Chairman Chamberlain, of men, which Chairman Chamberlain, of the military committee, declared was

impossible.

Senator Warren declared Congress was handling the draft question with "kid gloves and not bare-handed" and that 18 to 45 age limits are necessary.

Among minor amendments written into the bill by the Senate was a provision that a lack of college education shall not deprive men of positions in the aviation service.
