

**THE NEW CALOMEL  
A PERFECT SUCCESS**

Calotabs, the new perfected calomel, is absolutely purified from all of the unpleasant, sickening and dangerous qualities of the old-style calomel. The new Calotabs are rapidly taking the place of the old-style calomel tablets, as they are much more effective as a liver cleanser and system purifier, yet are entirely free from all objectionable qualities.

The new Calotabs are sold only in original sealed packages; price, thirty-five cents. Your druggist recommends and guarantees them.—(Advt.)

**PALMER SEIZES PROPERTY  
Four More Large Enemy-Owned Concerns to be Sold**

New York, Aug. 13.—Seizure of four more enemy-owned corporations with a total capitalization in excess of \$2,000,000 was announced here by A. Mitchell Palmer, alien property custodian, after a conference with the Washington advisory committee of the selling branch of this department.

The corporations which will be sold under the supervision of Joseph F. Guffey, sales manager, at public auction with the approval of the advisory committee are:

The Berger & Wirth Co., of Brooklyn, manufacturers of printers and lithographers' indications; organized about 1909, and owned by Emil Wor-

litzer, of Leipzig, Germany. The G. Zeigle Company, of Rosebank, manufacturers and importers of colors and chemicals, organized on April 4, 1914, with a capital stock of \$250,000, all owned by the G. Zeigle Company, of Stuttgart, Germany. A. W. Faber, of Newark, N. J., manufacturers of lead pencils and stationery supplies, trade name of a business which has been in existence since 1761, with its principal office at Stein, Bavaria, owned by Alexander, Count of Faber Castell and his wife, Otilie, Countess of Faber-Castell, residents of Stein, Bavaria. George Benda, of Boonton, N. J., manufacturers of bronze powders, a branch of the concern of the same name in Fuertha, Bvaaria, established in 1824, business here conducted by Adolph Nuebauer, on behalf of himself and partner, Eugene Kirschbaum, no win Germany.

**POULTRY YARDS AND FENCES**

Breeding stock, and especially growing chickens, should have an abundance of range, while hens kept solely for the production of eggs may be kept on a small area with good results. In rural districts the yarding of poultry is sometimes unnecessary and in such cases colony houses are used to advantage. Under this system it is easy to keep the birds healthy and their feed bill is reduced, as they are able to get a good part of their feed from the range. These houses, which hold about 100 hens, are placed from 200 to 250 feet apart and are moved from place to place as new range is needed.

When poultry fences are needed, as is the case in keeping poultry in towns and cities and in some rural sections, as few fences as possible should be erected, as they increase the cost of equipment, labor and maintenance. When very much land is available the poultry yard can often be kept in sod. On good soil this can be done by allowing 200 to 250 square feet of land per bird (217 to 174 birds to the acre), while more space is necessary on poor or light land. A large number of fowls are usually kept to the acre where double yards are used and the land is frequently cultivated.

Plymouth Rocks and the heavy meat breeds in small yards require fences 5 to 6 feet high, while a fence 6 to 7 feet high is necessary for Leghorns. The upper 2 feet of the fence for the latter may be inclined inward at an angle of 30 degrees, or a strand or two of barbed wire may be used on top of the regular wire to help keep them confined, while it is sometimes necessary to clip the wing feathers of one wing of those birds which persist in getting out.

Posts may be set or driven into the ground. They should be set 8 to 10 feet apart with common poultry netting, or 16 to 20 feet with woven wire. Corner posts should be about 8 inches in diameter, and be set 4 feet in the ground, while intervening posts may be 4 to 5 inches in diameter and set 3 feet in the ground. That part of the post which is set in the ground may be charred or treated with some wood preservative to advantage, while corner posts should be firmly braced or set in cement.

**Prisoners for Short Time**

Washington, Aug. 11.—Coming to the surface in the midst of a fleet of fishing schooners off the Massachusetts coast, a German submarine today sunk nine vessels of the fleet, the Navy Department tonight announced. The schooners sunk included the Kate Palmer, the Amita May, the Reliance, the Star Buck and the Progress. The names of the other four ships were not contained in Navy Department dispatches.

Four survivors from the crew of the Kate Palmer were picked up by the fishing schooner Helen Murley and have reached port in safety. No information had been obtained by the Navy Department tonight, as to the fate of the crews of the other schooners.

After the crew of the Kate Palmer had been taken aboard the submarine and held prisoner for one hour, they were set adrift in a small boat.

**"NO NEWS IS GOOD NEWS"**

Washington, Aug. 9.—"No news is good news," should be remembered by relatives and friends of American officers and soldiers wounded in France when they fail to receive information as to the condition of those disabled on the firing line.

This was told today to Senator E. D. Smith, who made inquiry regarding a young South Carolina officer who was wounded at Chateau-Thierry on June 15. Since the announcement in the casualty list that he had been wounded his family had heard nothing, and at their request Senator Smith took the matter up with the War Department.

The Senator was informed that when an American in the fighting service is wounded abroad the fact is mentioned in the casualty list, but no further information is sent by the American commander in France unless the soldier dies. Therefore, if the death is not reported, it is safe to assume, after a reasonable time, that he is improving, and possibly again in active service.

**CATARRH CANNOT BE CURED**

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarrh Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Medicine is what produces such wonderful results in catarrhal conditions. Send for testimonials, free.
