

MOTHERS TO BE

Should Read Mrs. Monyhan's Letter Published by Her Permission.

Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, some days I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia, I had gained in strength and was able to go around and do all my housework. My baby when seven months old weighed 19 pounds and I feel better than I have for a long time. I never had any medicine do me so much good."—Mrs. PEARL MONYHAN, Mitchell, Ind.

Good health during maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.

GENERAL ASSEMBLY

PASSES MANY BILLS

House Gives Greater Citadel Measure Final Reading

TAX COMMISSION BILL UP

Compromise Bill as to Consolidated Agreed Upon in Senate.

Columbia, Feb. 19.—The bill providing for a greater Citadel was given its final reading in the House today and sent to the Senate. The House measure provides for an appropriation of \$300,000, payable in three yearly instalments. It is proposed to erect the new plant on the Ashley river on a 200-acre plot of ground donated by the City Council of Charleston near Hampton Park.

Among the important bills passed by the House to the Senate today was the measure appropriating \$100,000 for a building for a school for the feeble-minded and the bills forfeiting vehicles and vessels apprehended transporting intoxicants in violation of the prohibition law. Bills were passed from second to third reading in the House allowing adjacent counties to consolidate their chain gangs; providing for the education of disabled soldiers at the University of South Carolina, the Citadel and Clemson prohibiting warehousemen allowing the use of cotton stored with them by

other than the owners, and authorizing the construction of a bridge across the South Edisto river to connect Charleston and Colleton counties.

All day long the Senate discussed the bill to substitute a new taxing board for the present tax commission. By substituting a new organization the purpose is to thereby abolish the present tax commission.

The Senate passed a bill that was very dear to Senator Wharton. He is a Confederate soldier, and for it he and Senate Alexander, of Pickens, fought valiantly. The purpose of the bill is, first to increase the Confederate pension from \$300,000 to \$350,000. Then it provides that in the administration of the pension money the making up of the list shall be in the hands of Confederate soldiers, and it stipulates that all pensions shall be alike, that is, that every Confederate soldier today on the pension roll shall be paid a flat sum of \$96 a year, instead of seven classifications, as at present.

The Berguson bill, which has already passed the House, and which is intended to exempt from taxation armories used exclusively for military purposes, passed the Senate, with an amendment including in this exemption property owned by the Y. W. C. A. and the Salvation Army. Other classes of religious property are already provided for.

On account of the blowing up of all good roads legislation in the House bills have been introduced both in the House and the Senate to secure South Carolina's quota of the government good roads fund by the imposition of a direct three-mill tax levy on all the property in the State. This fund if voted is to be under the direction of the State Highway Commission, and it is deemed necessary to secure the quota of money now available and to be made available by the United States Government in aid of post roads.

The statement was made on the floor of the Senate today that the opponents and advocates of the legislation with reference to the electric railway situation in Charleston had agreed upon a compromise bill, and everyone seemed to be satisfied. Senator Christensen expected to get this agreement through the Senate tonight as a substitute for the House bill.

RETURN TO WORK FIRST

Seattle, Feb. 19.—Shipyard strikers must return to their work under conditions prevailing January 21, when they struck for higher wages before the government will consider their demands, according to a statement today by the committee named by Director General Piez, of the Emergency Fleet Corporation, to settle the strike.

pounds and constituting the largest cooperative order of sulphur ever assembled in Oregon, were shipped for fertilizing purposes on volcanic ash soil into the recently developed irrigated sections of Crook and Deschutes Counties. This shipment was secured for 183 farmers in the two counties of the district. Each farmer had previously joined a sulphur-alfalfa club, organized by the county agent, and in so doing had pledged himself to apply at least 500 pounds of sulphur to alfalfa at the rate of 100 pounds an acre. Because of the size of the order the farmers saved \$3,500.

AN EXTRA SESSION LIKELY

Army and Navy Bills Cannot be Reached.

Washington, Feb. 22.—Among the usually best informed as to congressional matters the impression is becoming very strong here that both the army and navy appropriation bills will fail to be enacted before the close of the present Congress. Neither of the bills have yet been taken up by the Senate and with the short time now remaining it will be remarkable if they reach the President before March 4. If they do not an extra session in a short time will be practically inevitable.

THE SALVATION OF RUSSIA

Must Be From Within, Says Winston Churchill.

London, via Montreal, Feb. 22.—There is no intention to sending a larger British force to Russia, Winston Spencer Churchill, secretary of State for war, said in a speech here today. If Russia is to be saved, he added, it must be by her own exertion.

"We are recruiting a new army for two and three years' service at the rate of more than a thousand daily," Col. Churchill continued. "It is essential, in order to disarm Germany, and secure the reparation which we are determined to get, to maintain a strong and well disciplined army on the Rhine."

Mr. F. S. Royster, President of the F. S. Royster Guano Company, whose advertisement appears in another part of this paper, believes that no business can grow so large that the personal element may be left out. People like to deal with a real man, one who owns and controls his own business. He is always saying that the only drawback to having built up a

business which extends over many states and takes many factories to supply is that he cannot meet and talk to all his customers face to face as he did when he started in business thirty years ago. But as the years go by and capable men whom he has trained relieve him of some of his burdens, he feels more and more desirous of hearing from actual users of Royster goods and will welcome letters from any old or prospective customers. He has specialized all his life on plantfoods for our Southern crops and soils and places unreservedly at your command his own practical experience and that of his technical experts. Write to him about your plant-food problems. Just address F. S. Royster, Norfolk, Va.
