I do business with the largest cotton factors in the world and we can pay the best prices on all grades at any time. If you never have sold on this market, give it a trial. W. D. Epperson, Buyer, Pinewood, S. C.—1t-c.

I would be glad if my customers would take special notice of this, that I order in car loads, hay, grain, brick, shingles, lime, etc., and if, whenever they wish to buy a good quantity of any of these and will take same delivered at cars, I can make brick at a price of \$1.50 less per 1,000 and any other stuff at \$1.20 per ton less than when delivery is made up town. I will give notice upon arrival of cars so all may place their orders with me and will save them good money.

Can't Puncture or Blow Out

DAYTON AIRLESS TIRES in the past 6 years have been used by thousands of owners of light passenger and delivery cars in all parts of the civilized world, and have conclusively demonstrated:

- 1st—They can't puncture nor blow out.
- 2nd—They ride as smoothly as pneumatics.
- 3rd—They give much longer wear than the average pneumatic.
- 4th—They absolutely will not injure the car.

They have been indorsed by 50,000 or more satisfied users including the late George Westinghouse and Edward Grey, formerly Chief Engineer of the Ford Motor Company.

Piers of live, elastic rubber built about one inch apart inside the casing and vulcanized or welded to it take the place of an inner tube.

Nothing can happen but wear.

We have standardized on 30x3 and 30x3 12 and the price is right.

We sell direct where we have no dealer.
