

**CORP. HARRY LEVISON
WRITES MORRIS NESS**

Bad Butrich, Germany,
January 28, 1919.

Dear Morris:
I suppose you have already received my card advising you of my arrival in the land of the Ex-Kaiser. Have been in the above named place since Tuesday morning. Will probably remain here a week or ten days longer. Am at the 4th division headquarters on special duty for the CRO.

Bad Butrich is a pretty little German town situated on the route of the Moselle river. It is entirely surrounded by steep hills and mountains.

"My window shades always look nice."

Go to your windows now and examine your shades.

See if they are specked with those tiny holes and little ragged cracks that do so much to mar the looks of your windows. In shades made of

Brenlin
the long wearing window shade material

you will find the great fault of the ordinary shade overcome. It is made of a closely woven cloth without that filling of chalk which in the ordinary shade so soon cracks and falls out in unsightly streaks and patches. Sun won't fade it—nor water spot it. Made in many rich, lustrous tones and in Brenlin Duplex—one color on one side; a different one on the other.

Come see it.

SUMTER, S. C.

As it has been snowing here for the past few days, the natural scenery is beautiful. Climbing mountains and roaming through the valleys is great sport. A few of the tallest mountains have small towns built on the extreme heights. They are named after the erman military leaders such as Bismarck, Wilhelm II, etc.

Have bought a few souvenirs that would no doubt be interesting to you. Will satisfy your curiosity on my arrival in the States. All indications point to that time being far, far into the future. The thought causes me to have delirious tremens.

The German civilian population are very kind and courteous. Hard to believe they are the same people we have been at war with.

Well Morris, will make this letter brief. When I return to France I will write you a longer letter full of details.

Sincere regards to you and yours. Address all mail to same address as before.

Your friend,
Cpl. Harry Levinson,

Governor of Georgia to Start the Tractors.

Macon, Ga., March 2.—Scores of farm tractors and other farm machinery and implements are beginning to arrive here for the Dixie National Power Farming demonstration, which is to be held here during the week of March 10 to 15. Manufacturers from all parts of the United States have their advance men already on the field, and by next Sunday many of the presidents of these companies are to be here to personally watch the demonstration.

A tract of 2,500 acres of land a short distance south of this city, reached by two railroads and two highways, has been obtained for the demonstration.

Governor Hugh M. Dorsey has accepted an invitation to officially start the tractors.

A. E. Hildebrand, who had charge of the national demonstration at Salina, Kansas, last year, is general manager of the event.

of the Organized Sunday School Work of South Carolina. This is the first time that a whole month has been set apart for official School Visitation in this State.

Organization for the visitation has already begun. Each of the two hundred district presidents in the State has been asked to appoint an official visitor for each school in the district. This will mean a force of about twenty-five hundred visitors.

These official visitors, upon invitation of the superintendent, will speak briefly to the Sunday School, extending the fraternal greetings of the International, State, County and District Sunday School Associations. They will also speak of the coming State Convention at Florence, June 3-4-5, and make other announcements that will be of interest to every member of the Sunday School.

The officials at the head of the organization in this county are: W. R. Davis, Silver, President; Mrs. F. O. Richardson, Manning, Secretary and Treasurer, and the following District Presidents: J. H.
