## BIG PROHIBITION CAMPAIGN PLANNED

To Counteract Fight of Brewers and  
 Distillers

### TO BE MADE WORLD-WIDE

Program Announced From the Head-  
 quarters Presbyterian New Era  
 Movement.

New York, March 30.—Plans for a  
 world-wide prohibition campaign to  
 counteract an alleged plan of Ameri-  
 can brewers and distillers to transfer  
 their activities to other countries after  
 the United States goes "bone dry" were  
 announced here tonight at head-  
 quarters of the New Era Movement of  
 the Presbyterian Church.

Especially emphasized, it was said, will  
 be given to the campaign in the  
 Orient, as, according to the statement,  
 the Presbyterian Church "fears that the  
 brewers and distillers have particu-  
 lar designs on China, India and other  
 countries where the Presbyterian mis-  
 sions have been making great head-  
 way.

The anti-liquor fight, it was said,  
 will be waged by missionaries already  
 in the field, as well as by special  
 agents, some of whom already are op-  
 erating in foreign countries.

In addition to the anti-liquor fight  
 in Mexico it was announced that the  
 church also would conduct an intensive  
 campaign against gambling, cock  
 fighting and bull fighting.

Four representatives of the church,  
 it was said, already are in Europe  
 planning the prohibition fight there.

The Rev. Dr. Charles Scanton, of  
 New York, general secretary of the  
 movement, has charge of this work, and  
 also is working with the International  
 Prohibition Federation campaign in  
 Europe. Daniel A. Poling, Dr. D. L.  
 Colvin and Capt. Edward Page Gas-  
 ton are working with Dr. Scanton.

A similar campaign is being planned  
 in Panama and South America by  
 Dr. W. J. Johnson, while Dr. William  
 B. Allison is campaigning in Cuba  
 and Guatemala. Missionaries have  
 started similar work in Korea, Siam  
 and Japan.

### HUNGRY NEEDS THE MEAT

Allies Consider Restoring 250,000  
 Hogs Held by Slavs.

Paris, March 30.—(By the Associat-  
 ed Press.)—Hungary's increasing  
 need of food, especially fats, is caus-  
 ing the American relief administra-  
 tion to give serious consideration to  
 the problem of restoring the 250,000  
 hogs lost to the people of that coun-  
 try by the fixation of new boundaries.  
 In the closing days of the war the  
 Austrian-Hungarian people sent these  
 animals to the southern provinces for  
 fattening and all of them still are in  
 the hands of the Jufo-Slavs.

American officials have opened ne-  
 gotiations to determine whether by  
 purchase or barter the hogs will be  
 returned when most needed.

A greater part of the difficulties  
 created by the blockades and threat-  
 ened blockades along the Italian  
 frontier disappeared in the past week  
 and as a result food is moving to  
 Czecho-Slovakia, Austria and Hun-  
 gary in greater volume.

The distribution in Vienna and  
 Budapest is progressing satisfactorily  
 and the success of the United States  
 signal corps in re-establishing wide  
 spread communication will go far in  
 preventing any further hitch.

It is not possible to telephone be-  
 tween Trieste and Vienna and there is  
 an American operator at either end.  
 Between Vienna and Budapest there  
 is a direct American controlled tele-  
 phone. From Vienna to Prague a  
 commercial line is open to the Ameri-  
 cans under an agreement giving food  
 messages priority. Communication  
 with Belgrade is possible with only  
 one telegraphic relay. There has also  
 been established through navy tele-  
 graphic communication with Zara,  
 the capital of Dalmatia, and down the  
 Adriatic coast.

### SOLDIERS AND WAR BRIDES

Transport Aquitania Reaches New  
 York With 5,591

New York, March 30.—The trans-  
 port Aquitania arrived here today  
 from Brest bringing 5,591 officers and  
 enlisted men of the American expedi-  
 tionary forces, sixty-nine war brides,  
 twenty-three army nurses and 127  
 medical officers and enlisted men of  
 base hospital No. 40, recruited in  
 Lexington, Ky.

The troops on board included de-  
 tachments of the Thirty-seventh,  
 Eighty-fifth and Ninety-first divi-  
 sions. The largest unit was the 166th  
 field artillery brigade, commanded  
 by Brig. Gen. B. F. Browne. The  
 166th brigade comprises the 347th and  
 348th regiments, fifty officers and  
 2,708 men, who are among the first  
 American troops to be equipped with  
 American guns and also were among  
 the first Americans to return after  
 participating in the occupation of  
 Germany.

### ADVANCES TO RAILROADS

Total by War Finance Corporation  
 \$145,000,000.

Washington, March 30.—More than  
 \$10,000,000 in loans to railroads have  
 brought the total advances furnished  
 by the war finance corporation to  
 \$145,000,000. The Baltimore and Ohio  
 yesterday received \$4,600,000 on the  
 security of certificates of the direc-  
 tor general of railroads and an addi-  
 tional \$2,000,000 on the company's re-  
 funding and general mortgage 6 per  
 cent gold bonds of series B. The Erie  
 Railroad Company at the same time  
 borrowed \$2,500,000 and the Missouri  
 Pacific Railroad Company \$1,120,000  
 on certificates of the director gen-  
 eral.

## Will It Plow Right After Years of Use?

is a question that occurs to you when you come to  
 buy a new plow.

### Avery Chilled Plows

do good work "to the end of  
 the chapter" because—

Share, moldboard, land-  
 side and standard are locked  
 together so rigidly by "The  
 Lock That Locks" that the  
 plow holds its correct set and  
 pitch, no matter how hard  
 the plowing or how long  
 the plow is used.

When you come to put on  
 new wearing parts, they slip  
 into place with ease and "fit  
 like a glove," retaining the  
 original shape and pitch of  
 the plow.

Before you buy another  
 plow, come in and examine  
 the Avery.
