

# You Can't Buy Better Ones!

THAT not only applies to the style in these Suits we are showing, but to quality in the clothes.

## Hart Schaffner & Marx

use nothing but the finest all-wool fabrics; that means longer wear, better fit, style that stays stylish.

You'll pay more for such clothes but they'll cost you less than others, day in and day out; because they wear longer; you get more days of service for every dollar you spend; that's the only way you really determine whether a price is low or high.

Our prices are the lowest you'll find considering what you get; we don't just say that; we guarantee it; your money back if you don't think so too.

### MERCHANT FOUND BENEFIT AT LAST

Customers Tell Him of His Remarkable Improvement  
**HE GAINED 25 POUNDS**  
White Declares He Thinks Tanlac Greatest Medicine in the World.

W. S. White, a well known merchant of St. Elmo, a Tennessee suburb of Chattanooga, recently made this remarkable statement regarding his experience with Tanlac:

"Most everybody coming into my store is telling me how much better I am looking, and no wonder, for I have gained twenty-five pounds in actual weight since I began to take Tanlac. For months I was in a terrible run down condition and had no appetite or energy. I fell off in weight and got so weak until I could not attend to my business. I was nervous and dizzy and took no interest in anything.

"I have taken three bottles of Tanlac and my improvement is remarkable. I weighed one hundred and thirty-five pounds before taking Tanlac and now I weigh one hundred and sixty, and, although I am a man of sixty years, I feel like a man of forty. My strength and energy have returned. I eat like a farm hand, and feel fine all the time. Tanlac is the greatest medicine in the world."

Tanlac, the Master Medicine, is sold by Dickson's Drug Store, Manning; H. W. Nettles, Jordan; Shaw & Plowden, New Zion; Farmers' Supply Co., Silver; D. C. Rhame, Summerton.

### COLORED FIELD DAY CELEBRATION

On Friday, March 28th, the largest crowd of Negroes that has gathered in Manning for some time, met at the Manning High School building to celebrate their Annual Field Day.

Quite a number of schools from all over the county was represented. At eleven o'clock the teachers from all over the county, with their pupils, met on the campus and the exhibits from the various schools were displayed in the different class rooms. Among the exhibits were chairs bottomed with cane, hats, brooms, shuck mats, rugs, flowers and all kinds of fancy work made by the pupils.

At 12 o'clock the program was had in the school auditorium. The addresses by Dr. R. S. Wilkerson, A. M., Ph. D., Rev. A. Lone, B. S., D. D., and Fergal T. Ballard were very timely and instructive. The audience was also addressed by Prof. Harry E. Daniels, Director of Agricultural Extension for South Carolina, Mr. Hampton Woolard, U. S. Farm Demonstrator for Sumter County and Prof. Lawson, principal of the Lincoln High School.

Mr. Calvin Johnson was appointed U. S. Farm Demonstration Agent for Negroes in Clarendon County.

Music was rendered by the band from State A. and M. College. After this program over a thousand school children of Clarendon County, along with their teachers, marched from the school house to the city park where they witnessed an interesting game of baseball between the boys of the Manning High School and the boys of the Lincoln High School.

The day closed with a literary program at the school auditorium, by the pupils of the Manning High School, under the directions of one of their teachers.

As a whole the Field Day celebration was a grand success, and was pronounced by many to be the best we have ever had.

### Guard Against Tuberculosis in Cattle.

Clemson College, March 28.—The Extension Service live stock specialists have issued a special bulletin to call to the attention of farmers and live stock men in the state a bulletin of the Bureau of Plant Industry entitled "Control and Treatment of Tuberculosis in Cattle." This bulletin contains a list of all accredited herds in the state and the United States, and those once tested without reactors.

An accredited herd is one which has been tested and officially accredited as free from tuberculosis, and every buyer of cattle should protect himself by consulting this bulletin and by correspondence with the state office of the Bureau.

Dr. W. K. Lewis, 901 Union National Bank Building, Columbia, is in charge of this work in South Carolina. From him can be had copies of the bulletin mentioned above and also names of breeders added to the official list since publication of the bulletin.

### RURAL CARRIER EXAMINATION

The United States Civil Service Commission has announced an examination for the County of Clarendon, S. C., to be held at Sumter on April 26, 1919, to fill the position of rural

**To Strongly Withstand the Winter Cold Better Than the Weak**  
You must have Health, Strength and Endurance to fight Colds, Grip and Influenza.

When your blood is not in a healthy condition and does not circulate properly, your system is unable to withstand the Winter cold.

**GROVE'S TASTELESS CHILI TONIC**  
Fortifies the System Against Colds, Grip and Influenza by Purifying and Enriching the Blood.

It contains the well-known tonic properties of Quinine and Iron in a form acceptable to the most delicate stomach, and is pleasant to take. You can soon feel its Strengthening, Invigorating Effect. 60c.

carrier at Foreston and vacancies that may later occur on rural routes from other post offices in the above-mentioned county. The examination will be open only to male citizens who are actually domiciled in the territory of a post office in the county and who meet the other requirements set forth in Form No. 1977. This form and application blanks may be obtained from the offices mentioned above or from the United States Civil Service Commission at Washington, D. C. Applications should be forwarded to the Commission at Washington at the earliest practicable date.

### TO HAVE AERIAL POLICE

New York City's 'Cloud Cop' Squadron to Be 150 Strong.

New York, N. Y., March 28.—Plans of the New York police department for a "cloud cop" section materialized today when twenty six American, British and French aviators were sworn in in the office of Deputy Police Commissioner Rodman Wamamaker as members of the police reserves.

Col. Jefferson De Mount Thompson, who will command the police aviation squadron, announced that uniforms for the aerial patrol men had been ordered and that planes would be ordered in May at a meeting of airplane manufacturers in Atlantic City. The squadron probably will take the air by June, he said.

According to Col. Thompson, the squadron when completed, will comprise 150 men, including fliers, mechanics, supply officers, medical officers, a chaplain and cooks.

Landing places will be at Governor's Island, Van Cortlandt Park, and Sheepshead Bay. Later, he said, landing places probably will be constructed on the tops of high buildings. Both land and sea planes will be used, he said.

### SAVE THE PEACHES

Clemson College, March 29.—It not only pays to spray, says Extension horticulturist, Geo. P. Hoffman; it is necessary to spray, if you want good fruit. Successful spraying calls for careful thorough use of particular sprays for particular purposes at particular times. The time is at hand for the first sulfur spray against worms. Spray your fruit and eat it yourself, or leave it unsprayed and let the worms eat it.

First Sulphur Spray:—This application is for the purpose of combating and controlling worms in peaches, plums and apples.

Kind and Preparation:—An arsenate of lead, or a poison spray made of a mixture of arsenate of lead, quick lime and water mixed as follows: Arsenate of lead (powder, see note), 1 pound; Quick lime, 2 pounds; water, 50 gallons.

Make a thin paste of the arsenate of lead, and slake the lime to a white-wash (warm water giving best results in slaking the lime) and pour together and dilute to fifty gallons. This mixture should be well stirred during the process of spraying.

Note:—In the use of the wet paste form of arsenate of lead, two pounds should be used instead of one pound.

Time of Applying:—Apply when about three-fourths of the shucks have slipped (which is about 12 to 15 days after the tree is in full bloom) in case of the peach and the plum; and after the bloom parts have fallen and before the blossom cup closes, in case of the apple.

### Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 60c per bottle.

### NOTICE OF DISCHARGE.

I will apply to the Judge of Probate for Clarendon County, at his office at Manning, S. C., on the 21st day of April, 1919, at eleven o'clock a. m. for Letters of Discharge as Executrix of the Estate of A. Preston Brock, deceased.

Lucy S. Brock, Executrix.  
Summerton, S. C.  
March 18th, 1919.—3t-14-p.

### The State of South Carolina, County of Clarendon.

Julia C. Johnson, Ella Brasington, Sue Johnson, Cornelia Johnson, Ida Way, May Hodge, and J. Columbus Johnson, and D. A. Johnson, in their own right and as executors of the last Will and Testament of J. H. Johnson, deceased, Plaintiffs, against

Thomas J. Johnson, Charles S. Johnson, Minnie E. Hodge, Columbus J. Johnson, and Julian S. Johnson, Defendants.

Under and by virtue of a Judgment Order of the Court of Common Pleas, in the above stated action, and to me directed, bearing date of March 17th, 1919, I will sell at public auction, to the highest bidder for cash, at Clarendon Court House, at Manning, in said County, within the legal hours for judicial sales, on Monday the 7th day of April, 1919, being salesday, the following described real estate:

1. All that piece, parcel or tract of land lying, being and situated in the County of Clarendon, State aforesaid, containing one hundred and twenty-nine (129) acres and bounded on the North by lands of Fulton; East by lands of Carolina Stock Farms; South Carolina Stock Farms and lands of Martha Brogdon and West by lands of Belle Lenisey and lands of J. C. Johnson.

2. All that piece, parcel or tract of land lying, being and situated in the County of Clarendon, State aforesaid, containing twenty (20) acres, more or less, and bounded on the North by lands known as Aaron Wilson lands, East by lands of Estate of R. R. Hudgins; South by lands of C. S. Land, and lands William Holladay and West by lands of I. V. Plowden and lands of William Holladay. Purchaser to pay for papers.

E. B. GAMBLE,  
Sheriff Clarendon County.

MOULDINGS AND MILLWORK

## When Cotton Seed Was Dumped in Creeks

because there was no market for it, it mattered little how much was wasted in planting. Now you simply can't afford to use an out-of-date planter because the

Avery "Memphis No. 10" Will Pay for Itself

with seed it saves. It puts the right quantity of seed in the ground, at a uniform depth, and covers it properly. Planting plates are driven by two pitmans—no chains to slip off or cog wheels to wear out of mesh.

Hopper can be lifted off or tilted back without using a tool of any kind.

The corn plates are extra large, giving each hole a chance to fill. This means no bare spots in the field.

Come in and let's show you other good points that make the "Memphis No. 10" the favorite of Southern farmers.

COFFEY & RIGBY, MANNING, S. C.
