

**WOOLWORTH DEAD**  
The Millionaire Ten Cent Store Magnate.

New York, April 8.—Frank W. Woolworth, who started a five and ten cent store in Utica, New York, forty years ago on a capital of fifty dollars and eventually became the

millionaire proprietor of a great chain of these stores in the United States, Canada and England, died suddenly today at his home, at Glen Cove, L. I. In addition to establishing a business with profits totaling nearly eight millions yearly, Woolworth built the celebrated fifty-one story Woolworth building in New York, said to be the tallest in the world.

**That's How Lucas Paint Saves Money**

You can buy lower priced paint than Lucas, but it costs you considerably more in the end. Ordinary paint covers only 200 to 250 square feet of surface, two coats. Lucas Paint covers from 300 to 400 square feet, two coats. Even if you do pay a little more per gallon for Lucas Paint, its greater covering capacity saves you money on the whole job.

**Lucas Paint**  
Once Used, Always Preferred

From every standpoint, an economical investment. In addition to the saving in first cost, you save half the usual material and labor expense of painting by painting only half as often. Lucas paint, in countless tests, has shown its ability to outwear ordinary paint two to one.

But greatest of its economies is the better protection it gives the surface painted. Pure linseed oil and the highest grade of lead and zinc, selected by laboratory tests, are used in Lucas Paint. They form an almost impervious paint coat, excluding moisture, resisting heat and cold, wind and snow, protecting the wood from decay. You can add years to the life of your buildings and reduce your upkeep expense to a minimum by the use of Lucas Paint.

**C. R. BREEDIN,**  
At The Manning Grocery Co.

Mr. C. H. LEONARD has built a  
**Masterpiece in Refrigerators**  
with **ROUNDED INSIDE FRONT CORNERS**

Before you buy a refrigerator, feel around the door frame for the rounded inside front corners. C. H. Leonard's 36 years' refrigerator manufacturing experience has supplied this exclusive feature in refrigerators bearing his name. The

**LEONARD**  
Cleanable  
**REFRIGERATOR**

is the standard by which to judge refrigerators. Its snowy, one-piece, unscratchable porcelain inside can be washed like a clean China dish—no place for dirt to collect, no smell to spoil food. The Leonard Trigger Lock draws door to air-tight joint. This with 10 walls of insulation constitute a wonderful ice and food saver.

**REFRIGERATORS SAVE FOOD**

A refrigerator is a vital necessity for food conservation. It also saves work, foot-steps, worry and money. It gives you properly chilled water and beverages; keeps children's milk at healthful temperature and generally guards the family's well being. Ask your husband to go with you when looking at refrigerators.

**AT THE MARINERS' REST**

Green Clerk—What business are you in, sir?  
New Guest—I'm a skipper.  
Green Clerk—Well, don't practice your profession here till you settle your bill.

**REMARKABLE**

"Do you find that this machine costs you less to keep up than your last one?"  
"Oh! much less. Why, I almost have enough left to live decently on nowadays."

**A NOM DE PLUME**

Number 4711—I see you're down on de prison books as Peter Dippo. Is dat your real name?  
Number 4712-Y—Not. Dat's only me pen name.

**WONDERFUL**

Wiggins—We had a chelsteining at Professor Getem's laboratory last night.  
Biggins—Last night?  
Wiggins—Yes; the professor named a new microbe.

**HER THOUGHT**

Mrs. Stingley—I trust the comp you're engaged to is a worthy young man.  
Her Daughter—Yes, mother, but rather shy.  
Mrs. Stingley—Mercy! I hope you don't mean financially.
