

# PUT WINGS TO YOUR CAR!

Fill up Your "Crank Case" With "Green Flag" Motor Oil,  
And Ride as Easy as an Airplane!

A smooth running motor, with her power up to the "pep" notch, running without a "buck" or a thump or a jar, makes it a genuine pleasure in driving a car. Correct and QUALITY lubrication is the answer. It's the difference between trouble and pleasure. To those who appreciate just what correct and "quality" lubrication means, this information is superfluous. They don't have these troubles. Most of them use "GREEN FLAG" MOTOR OIL exclusively, and have forgotten what "engine troubles" are.

Your engine and motor are lubricated by a special system, provided by the manufacturer for that purpose. This system reaches every part of the motive power and its parts with minute regularity. If this automatic system of lubrication were not provided, you could not run a motor car at all. If you had to personally oil some 18 or 20 parts of the engine and motor every day before you started out, even if such a plan was necessary, and you knew exactly

where and how to distribute the oil, very few motor cars would be in operation. But the lubricating system of every car obviates any attention on your part except having the oil put in the heart of the system as you need it. That's easy. You just drive up and have the dealer put in the necessary amount. But the general failing of most drivers of cars is this—they drive up and say—"GIVE ME A QUART OF OIL." That isn't the correct way to ask for it, to get the best results. Drive up and say—"GIVE ME A QUART OF 'GREEN FLAG' OIL."

There are a number of "GREEN FLAG" MOTOR OIL stations in this county. The dealers are well-known and reliable, and you can buy "GREEN FLAG" MOTOR OIL from any one of them with the assurance that you are getting the best oil, and the grade of oil best adapted for your needs.

It will pay you to drive out of your way to buy "GREEN FLAG" MOTOR OIL from any of the following well-known dealers:

### CARNEGIE HERO AWARDS

Fifteen Acts of Heroism Recognized by Commission.

Pittsburg, April 25.—Fifteen acts of heroism were recognized by the Carnegie-Hero Fund Commission at its meeting here today.

In two cases silver medals were awarded; in thirteen cases bronze medals. Six of the heroes lost their lives, and to the dependents of two of these, pensions aggregating \$1,620 a year were granted. To the dependents of three of the others who lost their lives, the sum of \$1,500 was granted to be applied as the commission may sanction. In addition to these money grants, in nine cases awards aggregating \$8,500 were made for other worthy purposes. Payments in the one-sum cases will not be made until the beneficiaries' plans for the use of the awards have been approved by the commission.

Medals were awarded to the following:

#### Bronze Medals.

### FIRST BIG AFTER-WAR SCREEN PRODUCTION SOON TO APPEAR HERE

"The Common Cause," J. Stuart Blackton's New Masterpiece, Tells First Complete Story of Great Victory—Replete With Rich Comedy.

"The Common Cause," the first big "after-the-war" screen production to be exhibited after the signing of the armistice that made the world "safe for Democracy," is to be shown here, at the Pastime Theatre for one day, on Thursday, May 15.

Manager Shope, of the Pastime, says that this screen sensation, which is the latest triumph of J. Stuart Blackton to be brought before the public by the Vitaphone Company, is in his opinion, one of the most artistic and appealing photoplay dramas that he has ever gazed upon. Herbert Rawlinson and Sylvia Breamer, two extremely popular young stars, are featured at the head of a cast which includes Huntley Gordon, Lawrence Grossmith, the famous musical comedy star; Charles and Violet Blackton, children of the producer; Philip Van Lorn, Louis Dean and Mlle. Marcel, a well-known French actress.

The drama has a prologue and epilogue, in which appear five famous women of the stage—Elicie Shannon, Julia Arthur, Irene Castle, Marjorie Rambeau and Violet Heming. They represent, respectively, Belgium, Italy, France, Columbia and Britannia.

Manager Shope, discussing "The Common Cause" as a production and an entertainment, said: "This is one of the best-made photoplays ever made and it certainly has everything about it to make it the greatest screen entertainment that has come out in many months. It covers the war from the time Belgium was ravaged until the present time, with the American and Allied arms

victorious; and yet it is not what I would call a 'war' picture. It tells the story of Allied arms, the reasons for the entrance into the struggle of Britain, France, Italy, America, etc., and shows how the American marines turned the tide of the war at the memorable battle of Chateau-Thierry by turning the Hun off the road to Paris. There is a splendid novelty in the form of an animated diagram showing this phase of the war.

"There is a beautiful love story running through the picture and some splendid battle scenes showing the tanks in action, the big guns and the battleplanes, but there is a total absence of the horror that has characterized the war itself and many of the pictures depicting it.

"One of the outstanding features of 'The Common Cause' is the fine comedy that is introduced. Lawrence Grossmith, the famous English comedian, is the leading funmaker, and he, with a polka and a French girl, produce some of the most legitimate comedy the screen has ever seen. The picture would be worth seeing for the comedy alone.

"I expect 'The Common Cause' to prove one of the most satisfactory entertainments I have ever given to the patrons of the Pastime, and I intend to make its presentation one of the big events in the history of the house. I will have the theatre specially decorated during the run of the production and expect to make the engagement memorable by the introduction of a number of novelties."

Manager Shope, says that "The Common Cause" takes on added value because it is authentic in every detail. It was made under the auspices of the British-Canadian Recruiting Mission, and shows some actual war scenes never before shown on the screen. In addition, there appear in the picture soldiers of the American and Allied armies, these troops having been loaned to the producer in unlimited numbers by the various governments. Some of the interesting scenes are those taken at the famous recruiting stand in front of the New York Public Library, where officers of all the Allies joined in the common cause that brought the armies up to the strength needed to overwhelm the Hun.

### PUBLISHERS END MEETING

New York, April 25.—The American Newspaper Publishers' Association at the closing session here today of its annual convention adopted a resolution urging the incoming Congress to repeal or suspend for two years the war time act of 1917 raising the second-class postal rates. The resolution declared that such rates, "crude and unscientific in character and burdensome alike to newspapers and their subscribers, are illusive to the needs of the country."

The resolution also asked that before any new legislation changing rates in effect at the outbreak of the war be enacted an expert com-

mission be appointed to inquire into the operations of the postoffice in regard to carrying second-class matter. This commission would ascertain the actual cost of such operations with a view to assessing equitable rates.

The election of officers developed a contest for the presidency of the association between Frank P. Glass, of the Birmingham (Alabama) News Incumbent, and Richard Hooker, of the Springfield (Massachusetts) Republican. Mr. Glass was reelected. Four of the directors, whose terms had expired, also were reelected.

### EMPEROR OF JAPAN BESTOWS FUND UPON SALVATION ARMY

Word has just reached America that the Emperor of Japan in an imperial decree has bestowed an annual fund upon the Salvation Army in that country.

The Emperor, in giving this financial assistance to the Salvation Army, recognized it as an official organization and a part of the Japanese Empire has turned over all uplift work to the men and women of the Salvation Army Corps.

In his imperial decree, the Emperor declared that he has watched the work of the Salvation Army within the confines of Japan for many years and that it was after a thorough investigation that it was decided to make this imperial fund so as to allow a scope to the Salvation Army in the far east, broadened with time, and to enlarge its activities in Japan.

At first the Japanese people were almost awe stricken by the coming of the Salvation Army workers into the land of the chrysanthemum. It was by hard work and diligent efforts on the part of the S. A. workers sent into the interior that they received the confidence of the people and were allowed to proceed with their work unhampered.

In addition to their work of uplift and taking care of the ill and needy, the Salvation Army has implanted in Japan a religious seed, which, in the last few years, has asserted itself in the advancement of Christianity.

The Japanese as a whole were at first very unfriendly to newcomers in their own country but now the giving of a large sum of money to the Salvation Army is absolute proof of their worth in Japan.
