The cow seemed to be in perfect health at 10 o'clock Saturday when Mr. Bradham gave her water, but when he went out to milk early Sunday morning he found her dead. He has no idea what the trouble was, unless she had an attack of acute indigestion.

EDUCATOR FROM GEORGIA SPEAKS

Wife Had Suffered Four Years, He Says

TELLS OF CHANGE

"I have Never Seen Any One Improve Like She Did. Thanks to Tanlac."

"Tanlac is the only medicine that ever did my wife any good," declared Prof. W. A. Wood, of Central Graded School, Winder, Ga. "It has restored her to health and relieved us of untold anxiety, for her case was a most serious one."

"Her main trouble seems to be nervous indigestion," he continued. "She had suffered four years and had lost in strength and weight in spite of the best treatment we could get. She was extremely nervous and the loss of sleep pulled her down to a shadow. She could digest little she ate, and suffered from gas on the stomach, heartburn and nausea, and she had had headaches most all the time, with persistent constipation."

"After some hesitancy we decided to try Tanlac, and she began to show decided improvement with the second bottle. She has since taken several, and the change has been marvelous. She is gaining in strength and weight every day and practically all her troubles have left her. She eats and enjoys anything she wants and rests well at night. I have never seen such improvement in any person in such a short time."

Mrs. J. E. Reardon, accompanied by Mrs. Mollie Harrington, of New Zion, left yesterday for a stay with friends in Columbia.

BREAKFAST ON TIME

One of the things you'll enjoy about a Puritan Cookstove is its dependability—breakfast is always on time with a Puritan in the house.

Whether you want a quick hot oven or a slow simmering heat, it's always ready without bothering about coal, wood and ashes—and your kitchen has a summer coolness that it never knew before.

The Puritan burner gives a hot steady flame that comes in direct contact with the utensil—instantly regulated for low, medium or high heat. The flame stays where set, smokeless and odorless. The brass burners last for years.

Sold by all dealers.
