ALSO

Gasoline and Lubricating Oil.

Note to Advertisers.

There will be several vacant spaces in the Summerton Bureau for advertisements within the next few weeks, unless those having those spaces will renew their ads. There are several mercantile establishments in Summerton who do not advertise in the county paper. They state that it does not pay. I had one merchant in Summerton to tell me only a few days ago that he believed he sold more goods through advertising in the Summerton Bureau than he would have by efforts in show windows. We all more or less have show windows in Summerton, but folks in the country don't ride through town to look at your window exposition like they sit in the cool shade of the afternoon and read the weekly advertisements in the Summerton Bureau. After next week I hope to be able to see all the merchants in Summerton and secure an adv., if only a small one for each week. It helps the town, increases the sales, besides shows the spirit of a good town. If we do not have the space to place all on one page, I know that the Editor will allow us at least two pages for this kind of business. Advertise, it will help your business. Folks may not tell you always that they read your adv., but they do just the same. If you want your advertisement changed every week and do not have the time to do it, I shall always be glad to assist you in every way possible to make it pay you. I understand that there will be several new business enterprises in Summerton within the next few weeks and we welcome them to this department when they see fit to place an opening advertisement.

M. W. D. Carson spent Saturday in Sumter on business.

The Misses Baker of Scranton are visiting at the home of Mr. W. J. Goodwin.

Mr. J. A. Hunsacker spent Sunday and Monday in Bennettsville.

The Sanvee Crossing Company is still canvassing the county and adjoining counties in the interest of the Santee River Bridge at Pinckney's landing. We understand that they have met with generous response from all having been asked to help so far, and that everything points out that the project is an assured thing and all news concerning the same is very encouraging.

We are sorry to hear of the critical illness of Mrs. E. O. Rowe, of the Cross Roads community. We hope for her an early return to health.

Rev. W. E. Wiggins, Mr. J. S. Canney and J. E. Rowe are attending the Methodist Conference at Olanta.

Messrs. A. J. Plowden and A. W. Billups have returned from Charleston, where they went to attend the United States District Court.

Mr. Charles B. Davis and family spent Tuesday in Manning.

Mr. Harry Brown has accepted a position in Manning with a department store as dry goods salesman.

Mr. James McClary is spending a few days in town, having recently returned from Wofford College, Spartanburg.

Representative R. S. Whaley has promised the citizens of Summerton to have the Federal Government establish a combination mail and passenger jitney service between Manning and Summerton, provided a petition is sent up to that effect from the citizens of Summerton, Manning, and intervening points.

In view of the fact, that under the new schedule which goes into effect

on the Northwester railroad on the 8th day of this month the people of Summerton will have only one mail per day, and in view of the fact that under present arrangements, the people of Summerton have no Sunday mail, the aforesaid combination mail and jitney service between Summerton and Manning, will mean a great convenience to the people of Summerton and all patrons of the Summerton postoffice, and at least 500 citizens should sign the petition to Representative Whaley.

Besides, under the proposed new schedule on the Northwestern railroad there will be no connections from Charleston, either night or morning, at Wilson Mill, and all parties from Charleston desiring to get into Summerton, either night or morning, will have to go around by Sumter; the combination mail and passenger jitney service between Summerton and Manning will become an absolute necessity.

Mr. Ellison Capers is spending a few days with his mother, Mrs. Carlotta Capers. Mr. Capers has not yet received his discharge from the service but expects to within the next few weeks. His many friends are glad to see him home again and hope that it will not be long ere he will be out again.

The recent rains throughout the surrounding community have afforded the farmers of this section an opportune time for putting nitrate to their crops. The crops in this immediate section are far better, we are told than in many adjoining counties. Up to the present we have had no real bad weather to amount to anything and we have one thing to be thankful for, that we have not been visited by a hail storm such as they have had in other parts of the county and adjoining ones. However, we have had a rather warm winter, and the farmers may expect to have on hand many insects and pests about the time to lay by their crops. The past winter was very mild and owing to this fact we may expect the arrival of the boll weevil probably one year earlier. Taking into consideration their past rate of travel it will take something like three years before they manifest themselves in this locality and with the Santee river a good barrier, this may hinder their rate of travel at least one year and it is very probable that it will be something like four years before they will be here. I am not familiar with the pest, although my old home being last year infested with the greatest of all cotton pests, but according to all reports from regions infested, there is little or no possibility towards making a cotton crop when they are prevalent. Some people seem to think that they will never reach this far, and others think this certain, unless something is discovered to prevent them in the form of a spray or some kind of chemical to apply, possibly in the soil and let this be effective from the start of the seed to germinate, that we shall be in the weevil belt within the next three years. We may not look for a total infection within that time as it takes three years after first being discovered.

Miss Eugenia Richbourg of Summerton and Mr. Wade Weatherford of Manning were united in the holy bonds of matrimony on last Tuesday morning, the 3rd inst. The bride was the accomplished daughter of Mr. H. E. Richbourg of the Cross Roads community and Mr. Weatherford, a prominent business man of Manning. Their

SUMMERTON, S. C.

ANNOUNCEMENT

We are carrying a full, up-to-date stock of Ladies' and Gent' Furnishings among which are the reliable line of Hart Schaffner & Marx Clothing for Men, Style-plus Suits, Manhattan Shirts, Walk-Over Shoes for Men, Queen Quality Shoes for Women and a general line of Children's Shoes. Besides this, we also carry a full stock at all times of Dry Goods Specialties, and a general line of staple stuff. Our prices are right, as they are bought right, we can afford to sell them the same way. Our buyer leaves on July 15th, for the North and West and will visit St. Louis, Chicago, Philadelphia, New York and Baltimore in the interest of our business and will select a supply of the latest styles and materials for our Fall Business. Come in and let us help you to pick what you need.

It is rumored in and around Pinewood that we have purchased a building there and contemplate opening up an establishment there, but such rumors are not true and we want to state that we have all the business that we can possibly attend to here. We would like very much to be in position to open up possibly in some other town, however, this is quit out of the question just now. We extend however, a very cordial invitation to our Pinewood friends to our stores here and assure them courteous treatment and a square deal.
