WILKINS COMMITS SUICIDE IN PRISON

Doctor Convicted of Wife Murder Hangs Himself.

MYSTERY HOW HE GOT ROPE

Pulse Still Beating When Cut Down But Efforts to Resuscitate Fail.

Mincola, N. Y., June 29.—Dr. Walter Keene Wilkins, who was convicted of the murder of his wife, Julia, by a jury here Friday afternoon, committed suicide in the bathroom of the Nassau county jail tonight by hanging himself with a rope.

Although the aged physician's pulse was still beating when he was cut down and every effort was made by the jail physicians to save his life, he died a few minutes after 8 o'clock. Dr. Wilkins' neck was broken, it was announced.

Jail officials were unable to explain how the doctor obtained the rope with which he ended his life. During the afternoon he had been busy writing in his cell. When he had finished writing he expressed a wish to go to the bathroom. His two guards, John Mills and William Henderson, allowed him to enter the room, where he climbed upon a chair, adjusted the rope and leaped off.

When the guards cut Dr. Wilkins down a short time later his pulse was still beating and they gave him first aid treatment, while awaiting the ar-

rival of physicians, who used a pulmotor but without success. The rope Dr. Wilkins used was new. He had been thoroughly searched on Saturday jail officials said, and it would have been impossible for him to have concealed the rope about his person. He had no visitors this afternoon except the chaplain. How the rope came into the prisoner's possession will be the subject of an investigation by the jail and county authorities, it was stated.

The doctor spent the entire afternoon writing his letter of self vindication and two other letters giving directions for the disposal of his body and care of several pets to which he was greatly attached.

"Rather than be driven across the State of New York by Carmen plant (Nassau) detective and delivered up to Sing Sing prison," he wrote in the first letter, "I prefer to be my own executioner. Besides, it will save Justice Manning from looking into my face when he tells me I have had a fair trial."

"I am absolutely innocent of this crime which the indictment charges me with."
The letter was addressed to J. P. Healey of Brooklyn, an acquaintance. The second was addressed to Mrs. Elizabeth Muller, of Monticello, N. Y., formerly his housekeeper, requesting her to see that his pets were well cared for.

The third letter, addressed to Sheriff Phineas Seaman, requested that his body be cremated.

TOBACCO DOING FINE IN CHEROKEE

Two Thousand Plants Put Out in May Flourishing.

Gaffney, June 29.—Reports from the various farmers over the county, who availed themselves of the opportunity to put out tobacco plants which were donated by Tolleson Parker, and the Merchants and Planters National Bank of Gaffney, are to the effect that the plants are in a most flourishing condition, and bid fair to make a splendid crop. One plant about four feet high is on exhibition in the lobby of the M. and P. Bank and is attracting much attention. This plant was not put out until May, and if it is a fair sample of the plants all over the county an immense crop will be made from the two thousand plants which were given out.

MOTOR REVENUES DEVOTED TO MEET GOOD ROADS BONDS

In most States the motor-vehicle revenues are devoted to the maintenance and repair of the State roads or other improved highways. These States thus seem to have solved fairly well the knotty problem of how to secure sufficient funds to maintain the more important roads under the ever-increasing traffic requirements. As both the traffic and the revenues increase with the number of cars, there exists a possibility of so adjusting the registration rates as to keep pace with the ever-growing maintenance charges.

Recently, however, a movement to capitalize the motor-vehicle revenues and devote these funds to road construction has been quite noticeable. This is especially true in those States which have a comparatively large number of cars and only a small

mileage of improved roads. Thus, Illinois, last November, approved a bond issue of \$60,000,000 for the construction of a system of State roads. The interest and principal of these bonds is to be paid entirely from the motor-vehicle revenues. There is no doubt that these revenues will prove sufficient for this purpose. The main question which remains is whether or not a satisfactory source of maintenance revenues can be secured so as to prevent these roads, when constructed, from deteriorating.

KEEP THE HOGS COOL

Every time a hog gets too hot, he pants away an appreciable portion of meat. And hogs get hot very easily. During the summer, especial care should be taken to have the hog quarters well shaded. If no natural shade is available, a very good shelter may be made of straw or boughs placed about four feet above the pen or wallow. Clean water in which the hogs can lie should always be provided, says the United States Department of Agriculture.

CONSIDER STACKING WHEAT

With the biggest crop of wheat on record about to be harvested, it is probable that in many neighborhoods thrashers will not be able to make their rounds in the usual time.

If left in the shock, wheat will be damaged by every rain, even to some extent by the dew. The stacking of wheat has fallen into disuse in latter years, but it would be well the Department of Agriculture says, for the farmer who is not certain of prompt thrashing to consider it this year.
