## URNS AGAINST SOVIET

Former Hungarian Premier; Then Takes His Own Life.

Gonva, July 29.—(By the Associated Press.)—Alexander Garbai, president of the Hungarian Soviet government, killed himself in the assembly building at Budapest after delivering a speech against the soviet and the communist supporters and accusing Bela Kun, the soviet leader and minister of foreign affairs, of leading the nation to ruin, according to the Munich Nachrichten.

According to the Munich Nachrichten, M. Garbai until recently was reputed to be one of the strongest supporters of the soviet government, but lately he is said to have opposed Bela Kun. He was quoted as saying he realized the futility of the government's course and its dangers to the country.

Alexander Garbai was appointed premier in the reconstructed Hungarian cabinet early in April. Bela Kun, who was made minister of foreign affairs and minister of war, quickly became recognized as the leader of the communist faction.

## SUMMERTON BUREAU

(Continued on page Five)

company and build a platform and build near to the main line of the railroad and ask the commissioners to have the Railroad Company put in a spur they will save in the long run. Notwithstanding the cost of loading, labor will be scarce this fall and it will be almost impossible to get cotton loaded when you want it. This is a serious condition and is a shame and disgrace that the merchants have to put up with such poor accommodations and they are within themselves utterly helpless as far as the railroad conditions are concerned. There is enough business in Summerton, and the prospects of that much more, as is evident by the incoming merchants and business people to change conditions but there is one thing evident must act together as the whole situation depends largely upon what the public insists. Other towns are on the progressive move and Summerton should awake to the fact that we have as good outside community to depend

upon as any town in the State, a community that loves to see the town progress and move in upward strides. A town is like the immortal soul it must either move forward or retrograde. Which shall we do? We note good work being done in the streets and around town and this is well for a town with the population of Summerton as they have little or most of us know to do with and even the best of men can do little work with small capital. However such issues as the platform business which is the duty of the railroad to build and be no expense to the town should be provided and at once. Such municipal improvements as can be afforded are being done and for this we thank those in authority however we cannot excuse the railroad for not putting up a platform sufficient to meet the demands of the business of the merchants and farmers in and around Summerton.

Practically all of the boys from Summerton who were called to the colors during the period of the world war and those who saw service on the foreign fields of France have returned. All towns and cities have had homecoming celebrations, to welcome the boys home again and this should be a mighty glad occasion, something to offset the bitter feeling of having to part with them once, perhaps not knowing for sure their return safe. What about a celebration of this kind for the boys of Summerton? They will appreciate it. We have had one or two small occasions where some were present but as all have practically returned, now would be the proper time to have this great occasion and celebration with plenty to eat and drink (no, dry now). Think about it folks, don't you think these boys will be glad for you to show them that you appreciate what they did for you especially as most belonged to the Fighting Thirtieth?

Mr. A. P. Burgess has received the appointment as postmaster to fill the vacancy of the office brought about by the death of Dr. Ellison Capers. Mr. Burgess is a man of much integrity and knowledge which will be of great importance towards rendering service to the patrons of his office. Mr. Burgess has already assumed management and is familiar with the workings of the Department and serves his friends and patrons in a pleasant and assuming manner. Mr. Burgess is working for a twice daily and Sunday mail service by carrier from Manning and it is the hopes of his patrons that such movement will be put through as the schedule now in effect puts the mail late on arrival and affords only one incoming and one outgoing mail each day. Let us hope that those at the head of the movement will succeed and the service be effective at an early date.

### NOTICE TO CREDITORS

All persons having claims against the estate of Robert Allison Hodge, deceased, will present them duly attested, and all those owing said estate will make payment to the undersigned qualified. Administrator of the said estate.

# SIX MONTHS FROM NOW!

**YOU'RE** satisfied with whatever clothes you buy at the time you get them or you wouldn't buy. If that's all the satisfaction you want any clothes will do; they all look good when they're new.

We're trying to give you more than that. You want satisfaction six months from now or a year. That's why we offer Hart Schaffner & Marx clothes. They're guaranteed to satisfy you absolutely.

# Cothran Has Broken All Past Records

For High-Priced Tobacco This Week. Cothran has established an impregnable line of defense against low price--the enemy. Cothran is well-fortified behind a line of silver made solid by the American eagle--the bird of strength.

I am indeed delighted to inform you that tobacco prices were in the tree tops with me today. I had the boys laughing with the laugh and smile that only comes from people who can say deep down in their souls "you have given me more than I expected." I had lots of customers who can testify to this being true. I did not leave a single lot of tobacco without first selling it for the highest possible dollar to be had.

Our market showed more strength today by far than any time since the opening. I sold fifty-three thousand pounds today (Monday) and never had a better pleased crowd in all my experience as a tobacco warehouseman.

Now, boys, some more important, and doubly so too, advice. First—get the worms. Second—get the suckers as they sap the oil and life from the plant. Third—let it get ripe. Fourth—cure it well. Fifth—kill the stems. Sixth—do not let it get too much order in it, and be certain you do not. Seventh—when you have carried out the above orders load it nicely on your wagon or car and come straight to Cothran of the Central. You may meet old Mr. So and So at the cross roads who may tell you "Well, John, you carry your tobacco where I tell you and I will guarantee you will get more money." If it isn't to Cothran tell him he is wrong and come on to Cothran, the man that can talk all day over your tobacco and never tire. The man that knows and is a good judge of South Carolina tobacco, because he has sold it for more than twenty years.

Sell it with Cothran too, because he follows the tobacco business all the working days in the year, in season and out. Sell it with Cothran because he keeps up with the tobacco situation as best he can and imparts it to you from time to time the year around. Bring your tobacco to Cothran and have your interest protected to the last limit.

Yours for the best prices to be had. Below we give you some sales recently:—
