One of the resolutions which brought forth much discussion was the call for organized labor to press the work of forming unions in remote parts of the States not yet containing organized bodies. Another which was adopted gives the congress the power to designate the vice presidents of the body one in each State, as men having power to press upon the Legislatures of the various States all measures for the good of organized labor, the expenses of such representatives to be paid from the general fund.

The Florida Senator was on his way home from the capitol and as he alighted from a street car near his residence he was struck by another car coming from an opposite direction.

PARDONED BOYS ARE VINDICATED

Washington, Aug. 21.—One of the two American soldiers sentenced to death for sleeping on outpost duty in France and subsequently pardoned by President Wilson was killed in the great Aisne offensive in July, 1918, and the other was twice wounded and finally honorably discharged.

This was disclosed today by an exchange of correspondence between Secretary Baker and President Wilson.

Private Forest D. Sebastian, of Eldorado, Ill., 20 years old, was killed in the Aisne battle, Private Jeff Cook, of Lutie Okla, aged 19 was wounded in the Argonne offensive, where he received his second wound.

In writing the President of the gallant conduct of the boys after the President had pardoned them, Secretary Baker said:

"You will recall that early in 1918 four death sentences were presented to you from France; two, for disobedience of orders, you remitted to terms of imprisonment and two young boys, Sebastian and Cook, who were convicted of sleeping on outpost duty, you fully pardoned.

"It will interest you to know that upon restoration to duty both made good soldiers. Sebastian died in battle in the Aisne offensive in July, 1918

Cook was wounded in that battle and restored to health in time to fight in the Meuse-Argonne battle, when he again fought gallantly and was the second time wounded. He has now been restored to health through medical attention and has been honorably discharged from the service."

President Wilson, in acknowledging the Secretary's letter, wrote:

"Thank you for your thoughtfulness in telling me about the records made by Sebastian and Cook, the two youngsters who were pardoned for sleeping on outpost duty. It is very delightful to know that they redeemed themselves so thoroughly and it was very

thoughtful of you to give me the pleasure of learning about it."

LABOR CONGRESS ADMITS NEGRO

Asheville, N. C., Aug. 21.—Urgent recommendations providing for radical changes in many systems affecting conditions of living were adopted at today's session of the Southern Labor Congress in convention here, and the congress went on record as giving its hearty endorsement to industrial equality without regard to color. The recognition of the negro laborer on the same equality with the white came as a big surprise.

The sessions tonight were featured by the address of President Jerome Jones, of Atlanta, who heartily endorsed the league of nations. The decision to organize colored workers as it would white workers was unanimous. Prospects of a fight on the resolution vanished when delegates heard speakers advance reasons for drawing no color line in organized labor. The throwing of safeguards around the traveling public the reduction of the high cost of living and the proper control of unfortunate orphans, were some of the worthy aims to which delegates pledged their support in the adoption of strong resolutions calling for the hearty activities of the various crafts in the creation of opinion looking to the attainment of the goals named.

The final meeting of the congress will convene in the morning and will be featured by the election of officers and the discussion of resolutions which were not presented to the convention today.
