

— and from there we went to Japan”

Talk about adventures!

Men in the Navy come home with the kind of experiences that most chaps read of only in the books.

Here's your chance!

Uncle Sam has, as you know, a big Navy and gives red-blooded young fellows like you an opportunity to step aboard and "shove off".

What will you get out of it? Just this:

A chance to rub elbows with foreign folks in strange parts of the world.

The chance for good honest work on shipboard—the kind of work that teaches you something real; the kind of work that puts

beef on your shoulders and hair on your chest.

You will get 30 care-free vacation days a year, not counting shore leave in home or foreign ports.

You will have the kind of comradeship in travel that sailors know.

You will have regular pay over and above your meals, lodging and your first uniform outfit—good stuff all of it.

You can join for two years. When you get through you'll be physically and mentally "tuned up" for the rest of your life. You'll be ready through and through for SUCCESS.

There's a Recruiting Station right near you. If you don't know where it is, your Postmaster will be glad to tell you.

To any Father and Mother:—

In the Navy your boy's food, health, work and play, and moral welfare are looked after by responsible experts.

### REPORT ON CLARENDON COUNTY'S JAIL

Sheriff E. B. Gamble, Jailer. Visited September 2, 1919, by Assistant Secretary Broyles. Prisoners, day of visit, 4.

Since our 1918 inspection of this plant the Commissioners have made some improvements, for which we commend them. As we recommended be done, they have built a dining room and kitchen for the sheriff discarding the inconvenient and unsanitary kitchen shack formerly used. The new kitchen and dining room have been screened properly but water has not yet been put in a convenient place. We recommend that the Commissioners complete the kitchen by installing a good sink, with running water, both hot and cold.

The phase of the institution which deserves most attention at this time, is the condition of the bedding. We found the prisoners on the second floor sleeping on a steel floor, with ONE blanket under each prisoner. No one can sleep in comfort in such a manner and there is no county in South Carolina too poor to furnish proper bedding for its prisoners.

"We recommend that the Commissioners purchase metal wall bunks for the cells or buy a supply of good iron cots. The wall bunks are much better, and also cheaper in the long run because they are difficult to tear down or destroy. The jail once had canvas hammocks in them, but we do not advise the purchase of new ones, since they are easily destroyed by the prisoners, in addition to curving in such a manner as to make it impossible for a person to sleep in them except when lying flat upon his back. In addition to the bunks, the sheriff needs a supply of blankets and straw ticks.

We recommend that the sheriff have the entire jail scoured out weekly when prisoners are present; that no prisoner be allowed to use the same bedding more than a month without washing it; that each new prisoner be made to bathe thoroughly as soon as he is committed to lesson the danger of getting vermin in the building; and that when a new supply of blankets is provided each new prisoner be given clean blankets for his bunk. This will lessen the danger of spreading disease, which is liable when different people use the same bedding without washing it thoroughly. State Board of Charities and Corrections.

G. Crawford Williams, Secretary.

### GREAT HELP TO BUSINESS

"Yes Sir, Mr. Editor, the best proof that we believe heart and soul in the liberal use of printers ink is shown by the amount of newspaper advertising used by our Company." This statement was made a few days ago by Mr. Macklin, Publicity Representative of the Atlantic Coast Realty Co., to the editor of this paper.

Our conversation with the representative of the Realty Company was most interesting, because he proved his statement that newspaper advertising does pay.

The name of the Atlantic Coast Realty Company is familiar to most of the newspaper-reading public all over the south. Why? Because it is kept before the people through newspaper advertising, in fact, it has about got to the point when you automatically think of the name when you hear of a real estate auction sale.

Thousands of dollars are spent each year in newspaper publicity telling the people about the land which is offered by this progressive company. Proof that it pays is shown by the success of the land sales conducted by them. You can't sell what you have to offer unless you can interest the people in what you have to sell. Newspaper advertising produces the interest.

The advertising department of the Atlantic Coast Realty Company is composed of experts in this line of endeavor. From the chief advertising man right on down the ranks, every representative enthusiastically "dies in" to tell you about the property he is advertising and the history of the rise in land values. They are a fine bunch of fellows and deserves the success that is so richly theirs.

Keep on the look-out for their advertisements in this paper, for it will tell you all about the property which they will offer in this section at an early date.

### SEEKS AID OF AMERICA

Washington, Oct. 10.—Charging that speculators in the Far East have tried to take advantage of the helpless condition of Czechoslovak army in Siberia and have failed to keep promises to provide tonnage for the transportation of the troops across the Pacific on their way to their home in Europe, Lieut. Col. Rolf Medek chief of the bureau of military affairs and representative of the Czechoslovak ministry of war in Siberia, who has just arrived in Washington from Vladivostok, today issued a statement seeking the aid of the United States further in getting the Czech soldiers home.

Discussing conditions in Siberia he declared that the strength of the Bolshevik forces has greatly increased, so they constitute a regular army of sufficient magnitude not only to give endless trouble to both Kolchak and Denikin, both anti-Bolshevik leaders, but even seriously threaten the weak Allied forces operating in Russia and Siberia.

### GOV. APPRAISED OPENING OF ACTORS' FUND MEMORIAL DRIVE

The Honorable Robert A. Cooper, governor of South Carolina, who with thirty-two other chief executive of various states throughout the country, is a member of the Governors' Committee of the Actors' Fund of America, was today apprised of the official launching in New York of the Actors' Fund drive by a dinner to "Big Bill" Edwards, chairman of the Greater New York Committee. This drive, which is intended to put the Actors' Fund on a firm footing for all time, is a testimonial from America's business men to the stage for its record in supporting the war work of the country. Two hundred of America's industrial leaders pledged themselves at this dinner to a successful waging of the trades campaign, which

has been so elaborately organized as to include in its membership industrial and intellectual leaders in every section of the country. This coincides with the activities of the other large cities towards the same end.

Associated with "Big Bill" Edwards on the Greater New York committee are John D. Rockefeller Jr., Henry P. Davison, Cleveland H. Dodge, William G. McAdoo, George W. Perkins, Felix M. Warburg, Charles E. Lydecker, Charles H. Sabin, Mortimer L. Schiff and others. The national organization of trades includes in its membership Governor Benjamin Strong and three other Federal Reserve Bank governors, the governors of thirty-three states, Ex-President William H. Taft, Daniel Frohman, J. Ogden Armour, J. Hamilton Lewis, Julius Rosenwald, William Fellowes Morgan, and a number of prominent women, among whom are Mrs. E. H. Harriman, Mrs. Courtland Barnes, Mrs. John T. Pratt, Mrs. Lewis Slade, Miss Alice Carpenter

and Miss Alice Kauser.

It is the intention of American leaders of finance and industry to see to it that the American stage, which has become famous throughout the world by the spirit of self-sacrifice and service which it displayed for the consummation of American ideals during the war, is now tendered the appreciation of the entire country by having its Actors' Fund put beyond further financial difficulties. Instead, however, of asking the public for donations, the actors themselves will give an extra performance, with every company playing in all the principal cities of the United States, on the afternoon of December 5th. The funds from seat sales will be turned over to the Actors' Fund Committee, and already a small number of seats has been sold for amounts varying from \$5,000 to \$100, a seat. The general public, however, will be able to purchase seats for these performances at the usual rates.
