

You Can't Cure Rheumatism With Liniments and Lotions

If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will? Do not try to rub the pain away, for you never will succeed. Try the sensible plan of finding the cause of the pain. Remove the cause, and there can be no pain. You will never be rid of Rheumatism until you cleanse your blood

of the germs that cause the disease. S. S. S. has no equal as a blood cleanser, scores of sufferers say that it has cleansed their blood of Rheumatism, and removed all trace of the disease from their system. Get a bottle of S. S. S. at your drug store and get on the right treatment to-day. If you want special medical advice, address Medical Director, 49 Swift Laboratory, Atlanta, Ga.

Valuable Lands FOR SALE

We have for sale the following tracts of land belonging to Mr. Aaron Weinberg:

- 1 The Stephen White place on the Santee River road containing about 300 acres.
- 2 22 acres on the Northern side of the Town of Manning known as the Sellers place.
- 3 100 acres 4 miles West of Manning adjoining the Theodore Lesesne place and known as the Ben Hodge place.
- 4 350 acres 7 miles East of Manning known as the Burgess place adjoining lands of I. V. Plowden.
- 5 100 acres 3 miles West of Manning known as the Billy Tindal place.
- 6 210 acres near Davis' Cross Roads adjoining lands of W. C. Williams and of L. D. Sports.
- 7 125 acres near Silver known as the Warley place.
- 8 134 acres 1 mile from St. Paul upon which Richard Brown and Rufus Oliver now live, known as "Cypress."
- 9 1638 acres about 6 miles Northeast of Manning known as the Sparkman place. This place has from three to four million feet of pine timber on it.
- 10 900 acres near Santee Swamp known as the Cantey place.

Prospective purchasers may apply either to J. A. Weinberg or to Leon Weinberg at Manning.

MEMORIAL BUILDING TO BE ERECTED

The General Assembly at its last session passed a joint resolution providing for the erection of a building as a memorial to those who died in the service of this country during the World War, and to all others who served, whether as soldiers, sailors, marines, nurses or members of kindred organizations devoted to the cause for which the war was fought. Under the resolution the sum of \$100,000 is made available from the State treasury whenever, in the opinion of the Memorial Commission, which also was created by the resolution, a sufficient sum shall have been raised by popular subscription. This commission, of which the Governor is chairman, has decided that \$400,000 is the proper amount to be given by the people of the State in direct donations.

The building, which will be erected on lands now held by the trustees of the University of South Carolina, will have an alcove for each county; and in these alcoves will be preserved in marble or bronze or other imperishable form the records of the sons and daughters of the State who gave all, or offered all. The memorial structure will be held by the South Carolina Historical Commission. The building could easily be made to house the records of all the wars in which South Carolina has participated, and thus, in the course of a few years, to become an admirable historical museum and library. Records and relics of the Revolution, the war of 1812, the Seminole War, the Mexican War, the War of Secession, the Spanish American War, and finally the great World War could be assembled and forever preserved.

In this building may be held meetings of Veterans, various historical and educational gatherings, and other assemblages which have for their purpose the betterment of our State, and the honoring of those who have served and died in the days of dire need. The structure will be an inspiration to patriotism, courage, justice and gratitude.

South Carolinians have been somewhat careless as to the preservation of their historical records; a proper respect for gallant deeds and great sacrifices has not always been evidenced.

This neglect of historical information has continued to the present day, and unless we do something speedily for the collecting and safe-keeping of our latest war records, the generations to come will be deprived of materials of great value, of inspiration and of a complete understanding of operating factors in the lives of their forefathers.

Men of this State fought splendidly in the Thirtieth, the Eighty-first, the Rainbow and other divisions, in the navy and in the marine organizations. These men dedicated their lives to the great cause of universal justice. It is due them that the memorial be erected; it is necessary for the rest of us that we erect it, else we shall suffer because of duty and appreciation neglected, of inspiration lost. Those who suffered the untold miseries of muddy fields and battle perils, those who traveled over the treacherous seas will ever be remembered gratefully by us all. This memorial is but one token of this remembrance.

The work and sacrifices of our women have made a brilliant page in our history. Without their unified assistance, their sympathy, prayers and courage, the moral of our fighting men would have fallen, and battles won would have been battles lost. Shall this chapter of our history be neglected? The memorial building will keep the facts fresh in mind.

South Carolina as a State is better; we as individuals are better for having had the soldiers, sailors and marines as friends, brothers, sons, fathers, husbands. We are better, too for having had the noble women workers as friends, sisters and mothers.

Those who served in the mobilized forces of the Nation did their duty well and willingly. Shall we not do ours to the fullest. While they were fighting, we supported them from our positions at home. Their fighting is now ended, but we have yet another task before us. It is for us now to keep animated the high-souled ideals which inspired the armies and the fleets; it is for us to show appreciation.

Ingratitude will never be used as an adjective to describe South Carolina. This is not an appeal, because no appeal to the people of South Carolina in this connection should be necessary but merely a reminder that you have the privilege of making a contribution to this very worthy cause on or before November 11, 1919.

Robert A. Cooper, Governor and Chairman.
Richard I. Manning, Vice-Chairman.

WILL NOT DICTATE FERTILIZER PRICE

Washington, Oct. 10.—Fears of the cottonseed crushers that the Department of Agriculture would attempt to fix a price on cottonseed meal as an ingredient in manufactured fertilizers were allayed this evening when the department issued a bulletin declaring no effort will be made at this time to adjust or fix prices on fertilizer ingredients.

This action followed a conference lasting several days between the head of the bureau of soils and representatives of all the fertilizer factories and cottonseed crushers of the South.

The bulletin states, however, that the department still has power to punish profiteering and intimates very strongly that in the event of price boosting on either fertilizer or their ingredients, drastic action will be taken against the profiteers.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or digest the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

Lalley Light and Power

Is a Paying Investment

On top of all the savings it brings—savings of time and labor and actual money—Lalley Light itself is a saving and a good paying investment.

You might be inclined to doubt that. But owners themselves say so. Read their own words:

From the Justice Garage, at Spencer, S. D.:

"Since installing the Lalley, it has cut down our light bill almost \$15 per month."

Lalley Light installation in the home of S. A. Gibson, Roanoke, Texas

George Reudi, Bloomfield, Neb., says his plant doesn't cost three cents a day—for light and the washing and ironing in addition.

Can you run your lamps and lanterns on three cents' worth of oil per day?

William Kroeze, Arlington, Wash., says that his Lalley expenses are very small for running 25 lights, a washing machine and an iron.

From Texas, G. W. Toone writes that he has had experience with several plants, and finds that Lalley costs less to run than any of the others.

At Shelby Settlement, Ohio, Father Jacob Kuebler lights the Sacred Heart Church, the parish house and the sisters' house with Lalley, for less than 8 cents per day. So there is only one way you can consider Lalley-Light—and that is as an economy. At the end of the year, you can figure up—in dollars and cents if you like—the exact Lalley savings.

And you will find, more than likely, that they come very close to paying for the plant, if they do not actually pay for it.

TO DEALERS:

If there is no Lalley Light dealer in your immediate vicinity, write us, as we have a very attractive dealer proposition.

THEY'RE HERE

We spent a week on the St. Louis Market selecting for our trade the very best car of

Horses and Mules

They are in our barns now. And every animal is a beauty in its class. All sizes and any kind of an animal that you want.

We worked hard to get up this car, knowing the needs of our patrons in this section and we believe that we can satisfy every one.

We want our customers to come in and look over the bunch. We want to sell you the animal you need and will sell it at the right price.
