GOOD USES FOR CHASERS

Can Easily Be Turned Into Fireboats
and Fishing Boats, Naval
Experts Suggest.

Washington, Nov. 9.—Secretary Daniels is advertising a considerable number of vessels for sale, and in the near future will offer for sale a great many more, consisting of yachts motor boats, destroyers, gunboats, torpedo boats, barges, scows, submarine chasers, fish boats, and tugs.

During the war the navy built more than 455 submarine chasers. These are regarded as seaworthy boats, 110 feet long, fitted with three standard gasoline engines of 220 horse power each. These boats have been appraised at very low values in comparison with their original cost of from \$75,000 to \$80,000 each. Many inquiries

GET READY FOR "FLU"

Keep Your Liver Active, Your
System Purified and Free From
Colds by Taking Calotabs,
the Nauseless Calomel
Tablets, that are De-
lightful, Safe and
Sure.

Physicians and Druggists are advising their friends to keep their systems purified and their organs in perfect working order as a protection against the return of influenza. They know that a clogged up system and a lazy liver favor colds, influenza and serious complications.

To cut short a cold overnight and to prevent serious complications take one Calotab at bedtime with a swallow of water—that's all. No salts, no nausea, no griping, no sickening after effects. Next morning your cold has vanished, your liver is active, your system is purified and refreshed and you are feeling fine with a hearty appetite for breakfast. Eat what you please—no danger. Calotabs are sold only in original sealed packages, price thirty-five cents. Every druggist is authorized to refund your money if you are not perfectly delighted with Calotabs.—(Adv.)

and bids have been received for these boats, and plans have been discussed for converting them into fire boats, which can be accomplished for probably one-fifth the cost of new fire tugs.

Naval experts seem to think that the best apparent commercial use to which these vessels could be put would be in the fishing industry. Careful inquiry has been made at Boston and Gloucester, Secretary Daniels said, on the conversion work required. The suggestion has been made for the purchasers to remove two of the engines and use the space occupied by these, the officers' quarters, and the forward magazine for a midship hold, which will be approximately thirty feet long. This conversion can be made at a reasonable figure, and the purchaser would then have two spare engines for use or for sale.

These vessels now being advertised for sale are:

Motor boats: Nightingale, Bay Ocean, Sea Otter, Patrol No. 6, Tillamook, Daiquiri, Euphemia, Jeanette, Sea Gull, Rainier, Susanne Estella, Ionita, Valeda, Me Too, Mognet, Hetman, Maggie, Coyote, Akbar, Keham, Russ, Ono.

Yachts: Admiral II, Halcyon II, Cigarette, Parthenia, Genevieve, Gloucester, Dorothea, Margaret, Naushon, Kwasiud, Sister, Pawnee, Aileen, Eagle, Kemah, Adelante, Actus, Vega, Hawk.

Destroyers: Bainbridge, Paul Jones Lawrence, Decatur, Hopkins, Stewart Truxton, Whipple, Worden, Flusser, Lamson, Preble, Perry, Barry, Dale, Hull, Reid.

Gunboats: Isla de Luzon, Princeton, Yantic, Gopher, Madot.

There are also tugs, scows, freight lighters, monitors, torpedo boats, barges, fish boats, mine sweepers, freight boats, and submarine chasers being advertised.

"The terms of the sale are lenient," Secretary Daniels explains, "and make it easy for any one who is desirous of obtaining a vessel. On vessels taken over during the war a 10 per cent. deposit is required with the bid. If liberty bonds are deposited they are regarded as surety only and are not acceptable in part payment of the vessel."

SEVENTY YEARS OLD, DRIVES 22,000 MILES

Mrs. Wm. Upton on Cross Country
Tour Makes Own Adjustments.

On her return trip, Mrs. William Upton, the seventy year old woman,

who alone drove a Ford runabout from San Francisco to New York City visited the Ford Motor Company's main office. She was introduced to the officials of the Company, was photographed, held in her hand a Ford check worth two figures of millions, recounted the experiences she had encountered on her trip, and before leaving made arrangements for securing a new Ford car immediately upon her return to her home in Bakerfield, California.

Mrs. Upton has already driven her present Ford more than 22,000 miles, 7,000 of which were driven since she left San Francisco May 11th, the longest day's drive being 160 miles. At Springfield, Illinois, Mrs. Upton's birth place, she plans to dispose of the car and after visiting her many friends there, will return home via rail.

When commenting on her trip, she said that in making the drive from the Atlantic to the Pacific, it had not been her purpose to follow a direct line of travel, but to visit the most cities and places of interest. She visited the Petrified Forest, spent several days in the National Canyon, drove to Mount Vernon, visited the site of the Battle of Gettysburg, and then after touring to some of the Atlantic Coast Cities, made her way to New York.

She experienced practically no trouble with her car, although she pointed out the fact that she understands the Ford and made her own adjustments. Before leaving the Ford Company, Mrs. Upton expressed the hope that her next Ford, probably another runabout, will be equipped with a Ford starter.
