#### PUBLISHERS WANT

#### BUYING AGENT

Newspaper Men Discuss Shortage in Paper.

#### WILL RAISE RATES

Adopt Resolutions Favoring Increase in Advertising Prices. Few Attend Meeting.

Resolutions recommending that all newspaper consumed in South Carolina be procured through one central buying agent, that advertising rates be increased appreciably and that consumption of news paper be curtailed in every way possible were adopted at a meeting of South Carolina newspaper publishers held at the Jefferson hotel yesterday. A committee of three was also appointed to hold a conference with a paper buying concern to see if any arrangements could be made whereby it could supply the publishers of the state with print paper.

The meeting was called to A. B. Jordan, Dillon, president of the South Carolina Press association, and was intended to be of special benefit to those papers whose stocks of print paper are running low. The shortage of flat print paper is generally recognized as being serious and as threatening the very existence of many of the smaller papers of the state, and this meeting was held to consider plans for meeting the situation.

The meeting was attended by only a few publishers and practically all of those present said that they had paper on hand sufficient to supply them for a few months. The publishers who are known to have stocks sufficient for only a few more issues for some reason did not put in an appearance.

President Jordan called the meeting to order about 2:30 o'clock and briefly outlined the facts of the situation, saying that pocking houses have with drawn quotations and that even now print paper is difficult to secure at any price. The advance of winter, the coal strike and the scarcity of labor will all tend to aggravate conditions he said.

Various suggestions were made, Ed DeCamp, of Gaffney said that there were three avenues of escape. One was to have congress break up the newspaper trust, another to operate a paper making plant and the third to quit the business.

Necessity for increasing advertis-

ing rates was also discussed at the meeting, and it was generally agreed that some advance must be made.

After considerable discussion it was decided to see if some plan could not be arranged by which every publisher in the state would agree to take so many tons of paper per year and that all of this paper be bought through some paper broker in South Carolina. A committee of three was appointed to investigate this matter.

A resolution was also adopted recommending that all publishers fix their advertising rates on the following scale; 20 cents per inch for the first thousand of circulation; 12 1-2 cents additional (or 32 1-2 cents) for the second thousand and 7 1-2 cents additional for the third thousand.

While it was recognized that this increase was considerable, it was considered necessary in order to keep the papers living.

The meeting adjourned after the adoption of the resolutions.

#### GERMAN DELAYS TREATY

Paris, Nov. 23.—(Havas.)—The departure of Herr von Simson the German plenipotentiary, who was sent to Paris in connection with the protocol to the peace treaty, will delay final signature until December 1, and will also delay the enforcement of the treaty, according to the Press de Paris.

#### You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

### Resolutions.

WHEREAS, certain abuses in the Banking business have grown up in our town which we desire to pledge ourselves to correct;

and WHEREAS, we, the representatives of the four Banks located here, do solemnly pledge our institutions, ourselves and our employees faithfully to live up to the following resolutions, now, be it Resolved:

1. That because of the difficulty of balancing while attending to business and because of the hardship to our employees who have to work late at night, our Banking hours shall be from 9 a. m. to 1:30 p. m., when the doors shall close and remain closed until 4 p. m. when they shall again open for the transaction of business until 5 p. m., and, under no circumstances will a deposit be received, check cashed, or any other banking business with the public attended to outside of the said hours, save only during the tobacco season.

2. That inasmuch as the Supreme Court of the U. S. has decided that overdrafts are a violation of the law and constitutes a misappropriation of funds, and further because we have found them a source of trouble, expense and loss to the banks, and experience having shown that an account that is occasionally overdrawn is undesirable because causing loss to the bank; we pledge ourselves individually to adopt such course of dealing as in our opinion will cause an early elimination of overdrafts.

3. That immediate notice shall be given maker and endorser of non-payment of notes at maturity.

4. That these three pledges shall go into effect and be binding upon our Institutions on December 1st, 1919, and in the meantime we shall do our best to notify offenders along these lines, so as to minimize their inconvenience as much as possible.
