

GOOD ROADS

Columbia, Jan. 16.—It is inconceivable to me that South Carolina through its General Assembly now in session will not join her sister States in the formulation of a wise policy of progressive road building, "said George R. Wheeler, manager South Carolina Landowners' Association.

Mr. Wheeler has just returned from Florida and while there he made a survey of the peninsular State's superb system of hard-surfaced highways. He gave his opinion that the good roads of Florida had as much to do with attracting tourists to the State as its climate, and are chiefly responsible for the large numbers of substantial and, oftentimes, wealthy people who have settled there.

Mr. Wheeler said that he believes that should South Carolina emulate Florida's example and construct a State system of land surfaced roads

connecting with continuous States there is no reason why the thousands of tourists traversing these highways would not be attracted to South Carolina and settle here, some of them permanently. Mr. Wheeler said that the automobiles of 90 per cent of the tourists visiting Florida are shipped there either by boat or rail because of the inferior roads of this section.

"You can see," he said, "what an economic loss this entails on the State of South Carolina. If it had a system of hard-surfaced roads connecting like highways from the East to the South; it would cause tourists to travel by automobiles through this section, and thousands of dollars would be spent in this State by these tourists."

Mr. Wheeler asks this question: "Can South Carolina," with all her wealth in taxable property, banking resources and government resources, afford to be contented with her present road building program, while her

DID SO MUCH TO AID HER BOYS AND GIRLS

Mrs. Cathey Tells of Results Tanlac Gave.

"IT SURE IS FINE"

Anderson Woman Says She Is Glad to Recommend It Publicly.

"I am glad to recommend Tanlac to the public, for it has done so much to give back health to my boys and girls and other relatives. It sure is a fine medicine," declared Mrs. Josephine Cathey, of No. 12 R. Street, Anderson, in a statement she gave May 25, 1917. Her husband, a daughter, a son and daughter-in-law, Mrs. Cathey said, had all been greatly helped by Tanlac.

"My husband suffered from indigestion and he was troubled a lot with headaches, and also his appetite was bad. He complained frequently of being weak and run down. My daughter, Mattie, had about the same trouble her father did—indigestion, nervousness and terrible headaches. Mr. Cathey thinks Tanlac is a mighty fine medicine, for it helped him so much. Now he never complains of his troubles for which he took Tanlac, and Tanlac got him in fine shape. The Tanlac just made a new person of my daughter, Mattie, and had her in fine health. It sure is one more good remedy. One of my married boys and his wife also took Tanlac and it helped them a lot.

Tanlac, the Master Medicine, is sold by Dickson's Drug Store, Manning; H. W. Nettles, Jordan; Shaw & Ploeden, New Zion; Farmers' Supply Co., Silver, D. O. Rhame, Summerton.

Perfect Health Is Yours If the Blood Is Kept Pure

Almost Every Human Ailment Is Directly Traceable to Impurities in the Blood.

You should pay particular heed to any indication that your blood supply is becoming sluggish, or that there is a lessening in its strength and vitality.

By keeping your blood cleansed your system more easily wards off disease that is ever present, waiting to attack wherever there is an

opening. A few bottles of S. S. S., the great vegetable blood medicine, will revitalize your blood and give you new strength and a healthy, vigorous vitality. Everyone needs it just now to keep the system in perfect condition. Go to your drug store and get a bottle to-day, and if you need any medical advice, you can obtain it without cost by writing to Medical Director, Swift Specific Co., 46 Swift Laboratory, Atlanta, Ga.

PAXVILLE, S. C.

lumbia this week after attending the conference, of state executive secretaries of anti-tuberculosis associations from all over the United States, which convened in Chicago last week.

Enthusied by the preparations for more extensive work along all lines in the continuous battle with the white plague, Mr. Warner actively begins his labors for the association in this state. He has made Columbia his home and he and Mrs. Warner are gaining a host of friends in the city.

The Chicago conference was in session three days and three nights. The ways and means of the organization were discussed at length and a program adopted for the year's work. It was reported that \$4,500,000, at least, was realized by the 1919 sale of Christmas Seals. Accurate reports could not be made but it was stated positively that the amount raised for the 1920 budget would exceed that sum, if anything. This was an increase of one hundred and fifty per cent, over the amount raised in any previous year through the medium of the tuberculosis seal.

Special stress was laid on the work among children. One of the main fields of endeavor for the associations this year will be in the development of the habits of children in so far as they pertain to health and the rearing of the future generation. Mr. Warner and Miss Chaucsey Blackburn, the association's field secretary are already outlining work in behalf of South Carolina's youngsters.

A point emphasized at the meeting of secretaries was the co-operation of the tuberculosis workers with the

local and state health authorities. Without cooperation of those in charge of the health departments of the cities and the state the association's labors would be of little value.

Mr. Warner in his office in the Liberty National Bank building today said "It cannot be stated as yet what the seal netted for South Carolina because a report has not been made by the campaign committee. A meeting of the executive committee will soon be held at which campaign manager Mrs. F. S. Munsel, will submit a complete report. Reports will be made to the public quarterly by this association showing the distribution of funds and the assets and liabilities. This office and the books of the association are open to the public at all times. The filing system is being revised

and when completed it will likewise be open for the public's information."

WOMEN OPPOSE PLANS OF REPUBLICANS

New York, Jan. 18.—The Woman's Equal Opportunity League has notified Will H. Hays, chairman of the Republican national committee, it was announced here tonight, that working women are opposed to the proposed plank in the Republican platform that would limit their hours of toil. Women who are urging the plank, the league claimed, "do not represent working women in the full sense of the word."

ROYSTER'S FERTILIZERS

Have stood the test

Because

I maintain three very extensive chemical laboratories in which all materials are thoroughly tested. No harmful materials can ever enter into Royster goods. Our home and foreign markets are picked over for the choicest raw materials, then I formulate them in just the proportion which my life-time experience has found to be best for each crop for which a fertilizer is intended. The results of all this care is, naturally, a complete mixture which is really the "last word" in fertilizer. So, you see, I am justified in feeling proud of the Royster Products, which come from our fifteen up-to-date plants.
