

BUBONIC PLAGUE IS REPORTED IN U. S.

Pensacola, Fla., June 13.—State laboratory officials declared today that bubonic plague caused the death of George Gardina, a merchandise clerk, who died here Friday, and a clean up campaign and warfare on rats was inaugurated. No other cases or suspects have been discovered. A special meeting of the city commission has been called for Monday morning to discuss the situation and Dr. William of the United States Marine Hospital Service is enroute from New Orleans

to take charge of the campaign. Dr. Williams is bringing with him a supply of anti-plague serum for use if necessary. Gardina, it was stated attended a dance Wednesday night and was taken ill the following morning, dying 24 hours later. Dr. Herbert Bryan, his physician, sent blood specimens to the State laboratory where it was found that Gardina had the plague. Dr. Malory Kennedy the port physician, and the United States marine hospital authorities were notified immediately and every precaution is being taken to prevent a spread of the disease. Gardina's case is believed by physicians to have originated from

a rat from a ship from a Mexican port and to have been a sporadic one. **Not Definitely Established** Washington, June 13.—Officials of the Public Health Service said tonight that it was not definitely established that a case of bubonic plague had developed at Pensacola. The death of Gardina was reported Saturday to the Public Health Service and surgeons had been sent to investigate. It was said. Pathological specimens will be forwarded here tomorrow for examination. **FEDERAL AGENT IS KILLED** Atlanta, June 13.—W. D. Dorsey, a federal prohibition agent, was killed

and two other men wounded in an exchange of shots near Cleveland, Ga., today when Dorsey was destroying an illicit still, according to word received here late today. Dorsey, it was alleged, had discovered a still in the house of John Farmer, a moonshiner suspect, and started to destroy it when Farmer opened fire. Ed. Carpenter whom the prohibition agent had employed to drive him to the place, was slightly injured by the shots, but returned the fire, wounding Farmer so seriously he was not expected to recover. Federal agents here left immediately to investigate the affair. Dorsey, whose home was at Leo, Ga., was forty years old and is survived by a widow and several children.

ives on the case to renewed activity in tracing his women acquaintances and men with whom he played bridge for high stakes. A thorough search of the house failed to produce the slightest clue, not even a fingerprint. Police Captain Walsh said. Assistant District Attorney John F. Joyce today belittled the report that women friends of the dead man had keys to his home. Several additional persons who knew the whist expert were questioned at the Elwell home today, among them Countess H. de Sznawska and her sister, Mrs. L. Hardy. Neither would discuss the case.

154, and came to New York, where they have lived since. A short time later, Mr. Joyce said, Elwell returned to America. The countess and her sister admitted, the assistant district attorney stated, that their friendship with Elwell was broken after they heard he had made a remark associating them with German interests. This resulted, Mr. Joyce said, in the detention of the countess as an enemy alien two years ago. Some of the turfman's friends advanced the theory that he had been murdered by "a father or a husband." Police suspicion tonight was concentrated on two clubmen, both acquaintances of Elwell. One of them, the police said, had left the city when detectives called at his apartment. According to the police the missing man had made arrangements for his departure the day before the murder and had left about the time Elwell was killed.

Met Women at Carlsbad According to Assistant District Attorney Joyce, the sisters, who were born in Poland, met the turfman in Carlsbad, Bohemia, early in the war, while at the watering place with members of their family. The two women left Carlsbad in September

CHILDREN FOUND 30 MILES IN LAKE

Detroit, Mich., June 13.—Four youthful explorers, aged 3, 6, 9 and 11 years who set sail from Lake Side, Mich., Saturday in a frail row boat to search for treasure islands in Lake Erie, were picked up Sunday thirty miles off shore, after having been adrift for twenty-five hours.

The children, three boys and a girl sons and a niece of Merwin Daso, of Toledo were rescued by a passenger steamer. A prayer of thanks was offered by 1,500 passengers when they had been transferred safely from their frail craft.

In telling the story of the trip across the lake, young Mervin said that his six-year-old brother fell overboard at one time and later the girl did likewise. He rescued both of them with a rope. Then to make sure of no more trouble he tied little Robert to the bottom of the boat. He was still in that position when rescued. Two fish, which he had caught for his turtle at home were grasped in his hands. The rescue of the children terminated a search of the lake by scores of launches and motor boats on which police, marine men and friends of the family participated.

REPORT 193 MEN KILLED

Berlin, June 13.—One hundred and ninety-three miners are believed to have been killed by the explosion of a dynamite depot at Anina, the great Hungarian coal and iron mining center, fifty-five miles southeast of Temesvar, according to a dispatch from the latter city today. Thirty-six others were seriously injured. One hundred and seventy-three bodies have been recovered. The dynamite exploded just as the miners were leaving a shaft.

ADVERTISE IN THE TIMES

THEORY OF SUICIDE NEARLY ABANDONED

New York, June 13.—The theory of suicide was virtually abandoned by the police tonight in the mysterious death of Joseph E. Elwell, wealthy turfman and noted whist authority, who was found in his room last Friday with a bullet wound in his head. Insistence of many of the sportsman's friends that jealousy may have played an important part in the supposed murder stirred the twenty-five detect-
