FOR YOUR BLOOD

To be healthy and strong, you must have a certain amount of iron in your blood. When your blood lacks iron, nothing can take its place—and you are bound to suffer for iron until you get it. Pale, weak, nervous people, who suffer from headaches, indigestion, rheumatic pains, lack of appetite, and who feel tired, worn-out and depressed, probably need iron in their blood and should take

ZIRON

The Scientific Iron Tonic

Mr. A. R. Erwin writes from Ocilla, Ga.: "I am a man of 65; have taken very little medicine of any kind. Two years ago I got a pain in my back, pains in the muscles of my arm and leg; no appetite, very weak, languid, depressed, no energy, nervous and irritable . . . I took three bottles of Ziron, and got all right."

Get a bottle of Ziron Iron Tonic Tablets, today. If the first bottle taken fails to benefit you, your money will be refunded, for all good druggists sell Ziron on a money-back guarantee.

The following hints are very stylish in Picture Shows, and are now used a great deal by those who believe in keeping up with the styles: After

entering, don't remove your coats until you get to your seat, so as to knock off the view from the ones behind you. After sitting down, take at least five minutes to get comfortable in your seat. If you have any secrets to tell your friend, or love to make to your sweetheart, be sure to wait until you get to the Picture Show, so you can get your heads together and knock the view off from those behind you. Be sure and read out aloud, everything on the screen, for you may be some one near you that can't read. If you get tired, lean over on one side, but don't wait very long until you move the other way, for the ones behind you may go to sleep. It is very proper to get restless about the middle of the picture and move about so the rest will have to move also.

Muskrat farming has given formerly worthless Maryland marshland, a value of \$30 to \$40 an acre, the United States Department of Agriculture finds. In addition to the hides the carcasses are sold at 25 to 30 cents a piece for meat. They are considered a delicacy in some hotels.

MORE PEP FOR THE LAZY MAN

Frequently the Only Difference Between the Genius and the Dullard Lies in the Condition of the Body

The brain is not normally lazy. Under normal conditions it functions properly. Its work, however, is directly affected by the condition of the body, especially of the alimentary canal. Stop up the canal and the stagnated poisons will pollute the entire body. Fill the body with poison and no organ can function properly; much less the brain.

Clog the system by allowing chronic constipation and you are neither fit for work nor association.

Such troubles are common with mankind. Irregular habits, rash appetites, over-worked stomachs and sluggish livers always decrease the efficiency of man's brain.

One should always keep the system cleansed. SarDraS, a scientific preparation of medicinal roots and herbs, without alcohol, invigorates the sluggish liver and kidneys, soothes the irritated over-worked stomach, cleanses the system and strikes at the very root of the many common and dangerous digestive diseases. It will do what the common laxative cannot.

A tablespoonful three times a day before meals will set the system right. An excellent tonic for liver, stomach, kidney and blood ills.
