

ALDERMAN'S

A Word to the Wise is Sufficient!

Production of finished goods is practically at a standstill, while consumption, like time and tide, waits for no man. When the market turns, and you may be sure it will turn, there is no telling where prices for finished goods will mount to before production can catch up again with the demand.

Procrastination is the thief of time. Are you going to put it off until all of the wonderful bargains in Clarendon's Store of Quality have been grabbed up by the hundreds of shrewd, farsceing buyers who are flocking to our store, and have been for the past eight weeks in increasing numbers since this sale began, during which time we have disposed of over \$75,000.00 worth of Quality Merchandise.

Our goods sell themselves. They are all Quality goods, new, bright, clean, attractive, kept in modern fixtures away from the dust and dirt, and they are not going to be with us always; you may be sure of that.

We are not a prophet, neither the son of a prophet, but we know that a real bargain in the hand is worth two up a tree.

We have decided to continue our
