GO TO WORK

Many people are of the opinion that now that the new administration is in office and its views are fairly well known, there should be no further delay in the revival of business throughout the country.

Every change of administration brings its period of doubt and uncertainty. The moneyed interests do not know just how far it is safe to go, hence they set the brakes and mark time by a temporary curtailment of expenditures. This produces a natural slump in business that is designated by some as hard times.

Mr. Harding has indicated that he desires a conservative but progressive administration, free from entangling foreign alliances, and with the protection that should be afforded legitimate business interests in every section of the country. It is time for big business to get down to the steady grind again, and for little business to hit the same pace. Everybody go to work at something!

WHY SUCH AN EFFORT?

Sometimes people look upon attendance at church as a duty which must be performed, and yet one which requires more or less of an effort.

When we go to a show we pay the price to see performers reproduce scenes of everyday life that are old to mankind. It affords us the change our natures require and we are satisfied. At every church service the minister tells us something we did not know before. He extracts his information from a source that can not be questioned, from a book that never grows old, from the fountainhead of truth and knowledge.

The pages of the Bible contain more thrilling stories and more astounding wonders than all other prints of civilization combined—and every word is truth. All of this is yours for the going, as free as the air that you breathe. There is no ticket taker at the door, and no admission is charged. You are welcome without a price. Can you ask more?

IS THIS A SQUARE DEAL?

The war department and certain civilian agencies are fostering a plan to establish a series of citizens military training camps in this country.

It is understood that the government will furnish transportation, subsistence and uniforms, while the student would be required to devote his time free of charge. The main object of these camps would be to educate the public up to the necessity of universal military training, which congress has so far refused to sanction. On the surface this would appear to be a praiseworthy move. But is it? The rich man's son and the young man in comfortable circumstances can afford to devote a month of his time to attending these camps without remuneration. He would therefore be in line for a commission in the army AT ONCE in the event of war.

The poor young man, who can not afford to lose the time from his business without compensation, has no hope of attending such a camp, no matter how many natural qualifications he might possess that go into the making of an acceptable army officer. Buck private in the ranks is the prize that awaits him. Yet he must pay his proportion of taxes for the purpose of maintaining these camps for the benefit of those who are more fortunately situated. If it is necessary to maintain training camps in order to educate men for responsible positions in time of war there should be no favoritism shown. The transportation, uniforms and subsistence furnished by the government are paid for by all of the people.

If congress desires to be fair in the matter it will pay each man who attends a reasonable sum to compensate him for the time he loses from his business, at least an amount equal to the pay of a second lieutenant, the lowest commissioned grade in the army. Then the privilege of attending the camps should be apportioned out to the several states and counties in proportion to population, the local authorities to make the selections from those to apply. If Congress is not willing to do this, or something equally fair, then it should do nothing at all, and there should be no camps, unless private individuals desire to conduct them entirely at their own expenses.

To give the subject a purely local application, how many young men in our community are in a position to give a month of their time FREE OF CHARGE in order to attend these camps for the purpose of providing great security for ALL OF THE PEOPLE?

This country is not out of the woods of war. It will need defenders for many years to come. It will need many men competent to step into commissioned rank. But in organizing the camps that produce these officers should give every section of country and every class of our citizenry an equal opportunity and a square deal. If congress will add the item of compensation to the appropriation for these camps, together with provisions for apportionment of attendance privileges, we believe the scheme would be fair and patriotic to a degree, and would meet with popular approval.

But to spend the money of all of the people for the benefit of those who more fortunately situated financially we consider undemocratic, ungenerous and un-American.

A GOOD FRIEND

A good friend stands by you when in need. Manning people tell how Doan's Kidney Pills have stood the test. Mrs. Joe Wells of South Boundary Street endorsed Doan's nine years ago and again confirms the story. Could you ask for more convincing testimony?

Mrs. Joe Wells gave the following statement on January 30, 1911: "I have been greatly relieved and benefited by Doan's Kidney Pills. I had kidney annoyances and I suffered with dull backaches. I was also bothered with headaches and dizzy spells. Doan's Kidney Pills however, soon proved just what I needed, for in a short time I was free from those troubles." OVER SEVEN YEARS LATER, or on February 15, 1918, Mrs. Wells said, "I can always say that Doan's Kidney Pills are without a doubt the best kidney remedy on the market. Anything as good as Doan's is worthy of high recommendation."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Wells had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.
