Mr. Stukes is an attorney and ran down to south Florida for a vacation trip instead of going into the North Carolina mountains which had been his previous vacation haunt. Mr. Stukes thinks well of Miami Beach and is surprised at the salubrious climate, the freedom from pests and the beauty of the country. Mr. Stukes's father is the cashier of the First National Bank of Manning.—Miami Daily Metropolis.

Camels are made for Men who Think for Themselves

Such folks know real quality—and DEMAND it. They prefer Camels because Camels give them the smoothest, mellowest smoke they can buy—because they love the mild, rich flavor of choicest tobaccos, perfectly blended—and because Camels leave NO CIGARETTY AFTERTASTE.

Like every man who does his own thinking, you want fine tobacco in your cigarettes. You'll find it in Camels.

And, mind you, no flashy package just for show. No extra wrappers! No costly frills! These things don't improve the smoke any more than premiums or coupons.

But QUALITY! Listen! That's CAMELS!

HIGH BLOOD PRESSURE

What is the Cause?
It indicates a stiffening of the artery walls. To move the blood through the veins and capillaries the heart must work harder, it gets less aid from hardened artery walls, hence the high pressure.
The cause is faulty Kidney Action resulting in very slight salty deposit in the arteries which stiffens them.
Sometimes the condition is centered in some one position of the body. In such cases the cause is under-normal supply of nerve energy to this part, due to pinching of spinal nerves at the spine. The Chiropractor locates such pinching pressure, and by his skill adjusts the spinal joints to correct alignment. This removes the pressure and nature restores normal action of the organs or parts affected.
