REDUCTION MADE IN AGRICULTURAL BILL

Washington, March 6.—An appropriation of \$4,978,033 to meet expenses of the Agriculture Department during the coming fiscal year is recommended in a bill reported today by the House appropriations committee. The total is \$3,710,026 less than the amount appropriated for the current fiscal year and \$1,544,835 less than budget estimates.

Discussing the elimination from the bill of the \$360,000 carried last year for distribution of seeds by members of Congress the committee in its report said the budget bureau in submitting estimates did not include provision for seed distribution.

The item of \$2,000,000 carried last year's bill for loans to farmers for the purchase of seed grain in drought-stricken areas had not been reported in the bill reported today, the committee reported that no estimate was submitted for the purpose.

To Fight Tuberculosis

The bill carries \$2,578,800 for the eradication of tuberculosis in animals, \$1,728,800 for the payment of indemnities for tubercular cattle slaughtered by the government, \$600,000 for the prevention of the spread of moths, \$547,840 for the eradication of the pink boll worm, \$200,000 to prevent the spread of the European corn borer, \$50,000 for eradication of the foot and mouth disease, \$13,000 for wiping out parlatoria date scale, and \$25,000 for prevention of the spread of the Mexican bean beetle.

For enforcement of the packers and stockyards act a \$410,000 appropriation is recommended while a total of \$103,600 is carried for enforcement of the grain futures trading act.

An appropriation of \$6,532,000 is recommended for the forest service but no provision is made for maintenance of an air patrol for which \$50,000 was appropriated for the current fiscal year.

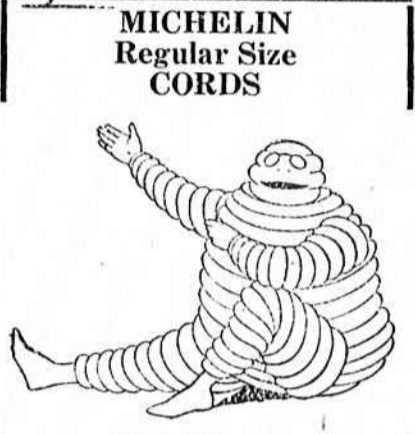

A total of \$4,285,960 is provided for the States relations service of which \$1,300,000 would be available for farmers' institutes and agricultural schools and \$1,000,000 for co-operative agricultural extension work—\$500,000 less than the amount ap-

propriated a year ago for the purpose.

For Public Roads

The bill carries \$483,320 for the bureau of public roads. Of \$2,503,000 recommended for the bureau of agricultural economies, \$291,707 is to be expended for investigation and encouragement of the adoption of improved methods of farm management and practice. Of this amount, the committee provides \$150,000 may be used for ascertaining the cost of production of principal staple agricultural products.

The bill carries \$39,000 for demonstrations on reclamation projects, \$400,000 for co-operative fire protection of forested watersheds of navigable streams and \$50,000 for the acquisition of additional forest lands, this amount being \$950,000 less than the appropriation for the current year.
