### IN MEMORY OF A. L. CAUSEY

In loving memory of our dear father A. L. Causey who departed this life May 16, 1930. He was 53 years, 11 months and 8 days old. Funeral services were conducted by Rev. Harrelson. Interment was at Mt. Olive cemetery.

He was married first to Fannie M. Grainger who preceded him to the grave about 32 years. To this union was born 2 sons, Willie and Cash Causey who survive him. Second to Hattie J. Sessions who survive him. To this union was born 8 children who also survive. They are Mrs Herbert Cox, Mrs Earl Fennel, Mrs Claud Smith and Guthrie, Kermit, Paul Ruby and Ethel Causey.

He is also survived by his mother, Mrs Esther Causey, and one brother Daniel M. Causey and 9 grandchildren.

It was hard to part with dear papa, but we mourn not as those who have no hope, for he told us he was saved and was going to be with Jesus.

Sleep on Dear Papa,  
And take your rest;  
God called you home,  
He thought it best.

May each one of us live so we will meet dear papa again where there will be no more sad partings, no

### Kelvinator's Sixteenth Birthday

#### PARTY WILL BE GIVEN BY QUATTLEBAUM LIGHT & ICE COMPANY

A birthday party will be given in honor of Kelvinator's sixteenth birthday on June 24th by Quattlebaum Light and Ice Company at their new up town office. Everyone is invited to this party and you may be sure of being well entertained.

Mr E. E. Rawl, Sales Manager for Carolina Kelvinator Company out of Greenville, N. C., will give two Kelvinator demonstrations, 3:30 in the afternoon and 8:30 in the evening. Mr. Rawl gave a very interesting and instructive talk on Kelvinators at the opening of the new office of Quattlebaum Light & Ice Company, and it is with pleasure we announce his return to give a more complete demonstration of Kelvinator the oldest electric refrigerator on the market. Mr. Rawl will demonstrate Kelvinator's refrigeration efficiency in a test to which no other electric refrigerator has ever been subjected publicly. Boiling water will be poured into Kelvinator's fast freezing tray and will be cooled 100 degrees in five minutes. You will see Kelvinator freeze water to solid ice in less than 80 minutes. He will also explain the (1) special Cold-Storage Compartment with below freezing cold for keeping meats, fish, ice cream, etc.; (2) steady cold for freezing regular ice supply; (3) automatic controlled cold in food compartment always below 50 degrees.

Don't miss this great opportunity to get the facts about electric refrigeration values.

A real birthday cake will be given, away at both the afternoon and evening demonstrations. Refreshments will be served and there will be other attractive features to the entertainment.
