FIRE FIGHTERS REORGANIZED

Work for County Nurse is Mapped Out by Director of Public Health Nursing of State Board of Health.

Chester.—The city council has reorganized the city fire department, better known as the Stonewall fire department, making a more efficient organization than it has hitherto been. It has always fought fires well, but the personnel of the firemen has not been large enough. This now has been entirely remedied, and with the reorganization the city's fire department will be among the best to be found anywhere in the Carolinas.

Mrs. Ruth A. Dodd, director of public health nursing of the South Carolina board of health, was in Chester recently and formally mapped out the work which Miss Clara M. Curran, county nurse, is to undertake. Miss Curran expects to work in various sections of Chester county during the week, with the exception of Saturday, when she will be at her office, where she will be glad to have the people call and consult with her in reference to her work.

CIVIL ENGINEER EMPLOYED.

Gaffney.—The town council of Gaffney has employed a practical civil engineer to make estimates of certain work which is contemplated in the near future. The work is being planned now and it is expected to be completed as speedily as it may be possible to do so.

County Auditor J. W. George, has called a meeting at his office of the county board of tax assessors for the purpose of setting valuations on the automobiles of the county.

Raymond Dobson, son of R. A. Dobson, had the misfortune to have his arm broken just above the wrist while cranking a Ford for an acquaintance. While the injury is very painful, the young man is getting on as well as can be expected.

PERMANENT BASE HOSPITAL.

Columbia.—That the base hospital at Camp Jackson is to be made a permanent adjunct to the camp is the substance of the contents of a telegram received by Joseph D. Miot, president of the Columbia Chamber of Commerce, from former Senator Chris Benet.

Several days ago a report reached the chamber to the effect that the hospital was to be removed. The camp committee of the chamber at once got busy on the proposition. Former Senator Benet made inquiry of the war department as to the matter and was advised that following the general policy of the war department no more overseas wounded men would be sent to the base hospital here but would, instead, be sent to the general hospitals. The Camp Jackson hospital will, however, be maintained as a base hospital sufficient large to care for the men being demobilized here and later will be maintained as a permanent base hospital in connection with the permanent camp.

COTTON MARKETING ASSOCIATION.

Orangeburg.—The Orangeburg Cotton Marketing Association has been organized in accordance with an act of the legislature making possible the association. The main purpose of the association is to secure for the farmer the highest price possible for his cotton, grading and selling it for him. Milton K. Jefferson, who has been engaged in cotton business for a number of years, has been elected to have charge of the cotton sales for the farmers on the Orangeburg market. A charge of 25 cents per bale will be made for all cotton sold.

Police Salaries Raised.

Darlington.—At a recent meeting of the new town council, it was decided to increase the salaries of all police officers on the force. The council also created another police job, giving to the Darlington Manufacturing district a night policeman. In the absence of Mayor J. A. McLeod, G. B. Brasington has been elected mayor pro tem.

Lindsay Norment has been recommended for rural carrier for Raynham. He was the highest ranking man who stood the examination. Next to him came Dr. W. F. Lowrey, a Croatan. There is a hot contest over this place and many people favor Lowrey.

MORROW MACHINE PLANT WRECKED.
Chester.—Fire completely wrecked the Morrow Machine Company's plant near Chester, causing a damage of approximately \$4,500 with no insurance. The fire probably caught from a match thrown in some gasoline after Emsley C. Tomberlin had ignited a cigarette. The fire is said to have spread quickly to the 55-gallon tank and soon the structure was a mass of ruins. In the loss were two automobiles, a motorcycle and the plants tools and machinery.

Good Times Are Here

That is, they are here if we want them.

Prosperity depends largely upon the right mental attitude. If we all sit back and wait for the return of conditions which prevailed before the World war we will wait many a long year—if not forever—and meanwhile business will be rotten. We'll never get back to 1914. This is 1919, and conditions have changed. A new deal has been made. Pick up your cards and play the game the best you can. If you have courage, punch and common-sense—and will pull together with others—we will have the greatest period of prosperity in our history. Thrift is, however, as necessary as ever—in fact it is more necessary. Waste not and put your savings in this bank where they will grow.
