WOMAN'S CLUB HOLDS FIRST MEETING OF YEAR

The Woman's club held its first meeting of the year 1937, in the high school auditorium Monday afternoon at four o'clock with the school committee as hostess.

Mrs. J. C. Roper, newly elected chairman of the school department of the club, presided over the meeting. Invocation was offered by the Rev. W. N. Long.

The general theme of the program was the importance of free clinics held frequently in the schools in an effort to discover the physical defects of the child, and to encourage correction of such when found.

Dr. F. F. Hicks addressed the club on the importance of caring for children's teeth in early life. Dr. Felder Smith spoke on the importance of close attention to the eyes as a requisite to good school work. W. E. Monts, superintendent of the city schools, followed these addresses, emphasizing his interest in the health of children and his desire for frequent clinics. He urged that the friends of the schools join in an effort to put into action the suggestions brought before the club by Drs. Hicks and Smith.

In behalf of the school committee, Mrs. John T. Little extended greetings to the members present, ministers and members of the faculty who were invited guests for the afternoon.

Mrs. J. F. Jacobs, Sr., the organization's president, presided over a brief business session when reports were heard. She reported \$268.81 was netted from the sale of Christmas seals in December under the direction of the club. Mrs. R. S. Owens was elected first vice-president of the club.

Mrs. L. R. Lynn announced that a series of pictures emphasizing the importance of Temperance would be shown in the orphanage chapel on February 6th.

Miss Rosa Mahaffey and H. F. Harris added to the program with two musical selections.

A social hour was spent in the home economics room where delicious refreshments were served.

Social Security Proposal Made

Would Finance Aid For Aged Needy By Doubling State Liquor Tax.

Columbia, Jan. 25. — A proposal to finance a state social security program by doubling the liquor tax was made in a statement here today by Representative James P. Mazingo, chairman of the house committee on social security legislation.

"There is a tax of ten cents a pint on whiskey, no matter what price you pay a pint," he said. "A dollar pint carries the same tax as a \$2 pint, whereas a dollar's worth of soft drinks carries a twenty cent tax. Doubling the liquor tax would not be an unreasonable burden, but the same as is paid on soft drinks."

The Darlington legislator said estimates placed the cost of the program to provide assistance to the aged needy at \$1,500,000 a year. This, he said, is about the same amount now derived from the liquor tax.

Mazingo asserted the cost of social security would be high for the first few years, but that later it would cost no more than it now costs—the state and the counties in financing agencies that would become unnecessary under the new program.

He said much could be saved by having all agencies placed under one administrative head. South Carolina now appropriates around \$2,000,000 annually for different forms of what is commonly called social security. He included county homes in this classification.

BAPTIST PASTOR HERE GRATEFUL TO PEOPLE

The following item addressed to the editor of The Baptist Courier by the Rev. W. N. Long, new pastor of the First Baptist church of this city, appeared in that publication the past week:

Rev. W. N. Long authorizes us to change his address from Blacksburg, S. C. to 68 S. Broadway, Clinton, S. C. Brother Long was recently called as pastor of the First Baptist church, Clinton, and has already begun his work. We quote the following from his letter: "We moved into the parsonage last week, which has been remodeled in a most satisfactory manner. The welcome which the people of Clinton gave us was cordial and helpful beyond words. A beautiful heat-rola had been installed in the living room, the coal bin was filled, and the pantry resembled a grocery store. All these expressions of love filled our hearts with gratitude. On Sunday evening, January 10, a union welcome service was held for us by the other pastors of the town. We would not complete this note without mentioning the cordial reception given us by the other ministers and their congregations. These few days have been most happy in forming new friendships and associations, and we are now ready to get down to real work among the people of this field."

PERSONAL MENTION J. L. Rentz has returned home after spending three months in Texas.

Wister Avery of Taladega, Ala., is spending a few days with Mr. and Mrs. W. M. Chaney and other relatives.

Cancer Curable in Most Cases If Treated Early

"Most of the cases of cancer that come to hospitals for treatment are in the last stages," said a prominent physician the other day. "If we get them for treatment from three to nine months earlier, they will be curable in from 60 to 70 per cent of the cases."

"There is an appalling ignorance of the early signs of the disease. Then there is the dread that the suspicion one may have of its presence may be confirmed. Next is the feeling of utter helplessness as to its outcome. To these are added the idea that the disease carries with it a sort of family stigma, and finally is added the fear of the therapeutic means of dealing with it."

"All of these notions together have engendered a secretive disposition on the part of the general public toward it, and unwillingness to discuss it or to know anything about it. All this is the result of the fact that most people know only the terminal stages of cancer—every victim of the disease they have seen has died after a painful lingering illness."

"There were 900 deaths from cancer in one of the large cities last year. A large proportion of these persons did not even have hospital treatment—meaning they had no treatment, for we recognize only surgery, X-ray or radium as having curative effect on the disease."
