## Nervousness

Case No. 149—Business man, age 48, complained of being on verge of nervous breakdown, suffering with pain in left shoulder. He also had stomach distress and dizzy spells. There was a history of three nervous breakdowns in the past.

This patient responded very rapidly following the first few adjustments. Stomach distress improved as did the pain in the left shoulder. In a few weeks his nerves had improved so much that adjustments were no longer needed.

If you are suffering from ill health and it is your desire to get well, consult Dr. Hart. He has helped others regain their health and perhaps he can do the same for you. For additional information concerning Chiropractic tune in on radio station WLBG each Monday, Wednesday, and Friday at 12:35 P. M. Also Tuesday, Thursday and Saturday at 6:35 P. M.
