Nervous Indigestion

"Dr. Hart, I feel 25 years younger since being under your care," said this 53 year old patient of ours.

"I have suffered nervous indigestion about 4 years and everything I ate caused stomach distress. I have taken laxatives several times each week because of constipation, and if I didn't take them, hemorrhoids would develop."

"After being under your care only a few weeks, my nervous indigestion has improved so much that I eat most anything without any trouble. I haven't taken any laxatives since being under your care and my bowels are normal in their action. That discomfort in my neck has disappeared and I have more energy than usual. I am well pleased with results from Chiropractic spinal adjustments and want to bring my wife in for a checkup."

These are the words of a patient who was dismissed a few days ago.

If you have a stubborn case of nervous indigestion or other illness and wish to get well, consult—
