Cotton Loan Rate In County This Year Set At 27.23c Pound

The U. S. Department of Agriculture has just announced that the average loan rate for middling 7-8 inch upland cotton, gross weight, produced in 1949 will be 27.23 cents per pound, which is 90 percent of parity price of 30.26 cents per pound as of August 1, 1949, according to H. A. Ropp, county administrative officer of the production and marketing administration. The average rate for middling 15-16 inch cotton will be 220 points (2.20 cents) per pound above the average rate for middling 7-8 inch cotton, or 29.43 cents per pound, gross weight. Premiums and discounts for the various grade and staple length combinations under the 1949 loan program will be calculated in relation to the loan rate on middling 15-16 inch cotton. Loan rates will vary according to location. All loan rates for Laurens County will be based on middling 15-16 inch cotton with a loan rate of 30.17 cents per pound, gross weight, with premiums and discounts for other grades and staples, Mr. Ropp said. Loans will be made on cotton represented by warehouse receipts issued by warehouses approved by the Commodity Credit Corporation and on farm-stored cotton (secured by chattel mortgages) stored in structure approved by the county agricultural conservation committee. Notes will bear interest at the rate of 3 percent per annum and will mature July 31, 1950, but will be callable on demand. Loans will be available through April 30, 1950.
