

### Plans Announced For Bell Street Opening Sept. 8

The following statement setting forth plans for Bell Street school was furnished The Chronicle yesterday:

The local board of trustees and the Bell Street committee wish to announce that plans have been made whereby Bell Street School will operate under the best possible conditions this year.

Classes for high school students will be held at Friendship Methodist church and sufficient rooms will be provided at the Bell Street school site to house the grammar school. Both high school and grammar school will operate on a double session plan. Under this plan part of the pupils will attend school in the morning and part in the afternoon.

At Bell Street school two class-

rooms have been provided in the shop building and two additional temporary rooms will be added to this building and one room will be housed in the little building already on the ground.

The two classes at Bethel School will operate as usual.

The necessary equipment will be purchased and repairs made in order to make this plan operate as efficiently as possible. The opening date for Bell Street school has been delayed one week and will open September 8th instead of September 1st.

### School Tuition Policy Is Cited By Trustees

Rules Given for Children of Non-Residents of District:

The trustees and administration of the Clinton Public schools, Hunter District No. 5 make the following

ing explanation concerning the policy of tuition for non-resident pupils.

If a person lives in an adjoining school district and pays taxes on property in Hunter District No. 5 his children may attend the Clinton schools without payment of tuition provided the following requirements are met.

1. A tax receipt must be presented to the office of the superintendent. At the time the tax receipt is presented written permission will be given for the child's entry.

2. Before the child is permitted to enroll this permit must be presented to the principal of the school the child attends.

The requirements to be met before a child of a person who lives outside Clinton school district and who does not pay taxes on city property or fall within the above category are as follows:

1. Written consent to the transfer to the Clinton Public schools must be procured from the trustees of school district in which person resides.

2. Tuition must be paid in full at the superintendent's office of Clinton Public Schools. Tuition must be paid in advance of admittance to school and in case of withdrawal before the close of school year a proportionate return will be made through the superintendent's office. Tuition for Grades 1 through 7 is \$30.

The tuition charge is based on the per pupil cost for operation and maintenance above the State and Federal funds provided for school purposes.

Pupils from out of the district will be placed where the size of the class makes it most desirable.
