"There's lots more to tell you... but someone else may want to use the PARTY LINE"

It's thoughtfulness like this that makes your party line neighbors thoughtful of you. It allows others to call and frees the line for incoming calls.

MANY of our customers desire different types of service which are not generally available now—such as individual line or two-party line service. We have a record of all such applications and we're working hard to provide the cables and central office equipment necessary to furnish the desired service as soon as possible.
