

**QUESTIONS AND ANSWERS ON NEW VET PENSION LAW**

Because of widespread interest among veterans and their dependents of the new pension law going into effect later this year, The Chronicle today prints the third of five columns of pertinent information on the new law. Succeeding columns will appear in future issues. Cut out and save each column for a complete fact sheet. The following questions, with appropriate answers, were chosen by the Veterans Administration from the thousands being asked.

In order to compare the new pension system with the present one, what is the amount of pension a single veteran may receive now?

A. At present any World War I, II or Korean conflict veteran if he is single and drawing a pension receives \$66.15 a month unless he is 66 years of age or older, or has been on the pension rolls 10 years, in which event he draws \$78.75. Those who become blind or so helpless as to require the regular aid and attendance of another person, receive \$135.45 per month.

Q. Now what will single veterans receive under the new system after July 1, 1960?

A. The new system is planned to relate the amount of pension paid to the need of the pensioner. Thus a veteran without dependents may receive a pension of \$85 a month if his annual income is not more than \$600; \$70 a month if his income is above \$600 but not more than \$1200; and \$40 a month if his income is more than \$1200 but not more than \$1800. If his annual income is more than \$1800 he receives nothing.

Q. What pension does a veteran with dependents receive at present?

A. He receives the same amount of pension as the single veteran receives. His only advantage is that he may continue to draw the pension if he has an annual income as high as \$2700, whereas the single veteran cannot draw a pension if his annual income exceeds \$1400.

Q. How will the veteran with dependents fare under the new system?

A. A veteran with one dependent may receive \$90 a month if his annual income is not more than \$1000; \$75 a month if his annual income is more than \$1000 but not more than \$2000; and \$45 a month if his annual income is more than \$2000 but not more than \$3000. If his annual income is more than \$300, he receives nothing.

Q. What about the veteran with more than one dependent?

A. A veteran with two dependents may receive pension payments of \$95, \$75 and \$45 in the same three income ranges noted above. A veteran with three or more dependents may receive monthly payments of \$100, \$75 and \$45 in those income ranges.

Q. What will the new system do for veterans who require regular aid and attendance?

A. Under the new law all pensions will be increased \$70 a month for veterans who require regular aid and attendance.

Detailed information to fit your individual case may be obtained from a contact representative at any VA office.

**Public Records**

The following public records were filed the past week in the office of the Clerk of Court of Laurens County:

There is no adequate substitute for these two things:

**EXPERIENCE — QUALITY**

Forty-three years of shoe repair experience in some of the finest shops on the East Coast.

Only a person brought up in a business with these years of experience can positively determine whether the materials he offers you are of the very best quality.

Remember these two words the next time you have your shoes repaired.

**MOST POPULAR**

Mercury sales are up more than any other car in its field. It's our most popular car in years. The reasons? Because Mercury has the cleanest styling in its field. It has the most price news, with every model at a new low price. And it's the best built. Only Mercury, except for two high-priced makes, road-tests every car before it leaves the factory, doesn't just spot check.

FOR ONLY A FEW DOLLARS MORE THAN THE TOP LOW-PRICED CAR, Mercury offers all these advantages: • More distinctive styling (Mercury has an exclusive body shell) • Steadier riding (7" longer wheelbase) • Safer on curves (greater weight for more stability) • Larger tires (8.00 x 14—cost extra on low-price cars) • Exclusive Road-Tuned ride • Safer brakes (more brake lining) • Quieter ride (23% more insulation) • More foot

room (692 cu. in. more for center-seat passengers) • Fewer bumps (special 3-phase shock absorbers) • Greater "see-ability" when it rains or snows (overlapping 3-speed electric wipers clear even the center) • Better visibility all around (bigger windshield and windows—1102 sq. in. more glass area) • No periodic brake adjustment (brakes adjust themselves for lining wear).
