

County Agent's Farm News

The recent snow certainly slowed all activity to a crawl, and in most cases to a dead stop. It is hard to realize that so much is in motion until force brings everything to a stop. I think we've all had enough. Farmers are in bad need of sunshine and dry weather. They have plenty to do now before planting. All small grain must be topdressed with nitrogen and should be sprayed with 2-4-D. This must take place before any plowing. Furthermore, it's gardening time. Farmers should take advantage of the weather and get every piece of machinery in top shape and ready to go. Unless this is done a lot of valuable time will be wasted.

Lawson Brothers of Joanna were forced to cancel their Hereford sale due to the snow. It has been rescheduled for Wednesday, March 23, at 1:00 p. m. Let's hope the weather is right and they have a good day.

North and South Carolina Guernsey cattle breeders will have a sale

of registered Guernsey cattle at the Newberry county fair grounds on Tuesday, March 22. This is another opportunity to strengthen your herd. Sale time is 12:30 p. m.

Every person in Laurens County should be interested in preserving the cotton acreage to the county. Often you hear a farmer say that he cannot make cotton pay. This may be true for some farmers. On the other hand you may say that cotton is the only thing they can make pay. The truth is that cotton has had a tremendous influence on almost everyone in the county. A large majority of us were raised and educated on cotton alone. It is true that times have changed, but when the going really gets rough, then everyone wants to plant cotton. Each individual farmer must take care of his farm allotment. If your allotment is gone, then it is most probably gone forever. Cotton acreage can be preserved for 1961 by either planting at least 75 per cent of your allotment or by turning it in to the County ASC Committee, or by turning in and planting at least 75 per cent of the acreage.

Farmers who plan to spray small grain or pastures with 2-4-D should read labels on the containers. Small grain and pastures must receive one-half pound of acid equivalent per acre. The one pint per acre recommendation is for the four pounds per gallon.

EXTENDED DEBATE

The Senate's round-the-clock sessions of the extended debate over the issue of so-called civil rights has been much in the news lately, as has the move to limit debate on the issue by invoking cloture. I regret that the Senate has had to waste so much valuable time over what is simply a gigantic political farce being pushed by both major parties in an effort to win minority bloc votes in large metropolitan areas outside the South. There are many more vital and pressing matters, such as defense, space exploration, reduction of the national debt—to mention a few—which merit the attention of the Senate. We 18 Southern Senators did not ask for the marathon sessions, but since they were forced upon us the only alternative we had were either to surrender to the innumerable obnoxious proposals, or talk.

In the Senate, which is known as the greatest deliberative body in the world, a Senator has the right to talk for as long as he can physically or vocally hold the floor in representing his State until 16 of his colleagues file a cloture petition and two-thirds of those present and voting (67 if all 100 are present) vote to invoke cloture (close debate). If the necessary two-thirds major-

ity vote is obtained, under Senate Rule 22 no Senator is permitted to speak "in all more than one hour" on any motion, amendment, or any type business pertaining to the pending matter.

On March 10 an effort was made by the most ardent "civil righters" to gag our group from further debate on the "civil rights" proposals. Fortunately, however, they were unable to muster the necessary two-thirds vote, the vote being 53-42 against cloture. Among those voting with us against cloture were Majority Leader Lyndon Johnson and Minority Leader Everett Dirksen.

This vote illustrates the great reluctance on the part of many members of the Senate to close off debate by their colleagues because of the basic respect which many Senators have for the principle of free debate, a Senate tradition which has served our country well on numerous occasions. The mere existence of this tradition—cloture has only been invoked four times—has accomplished two great things for the

country: First, by discouraging extreme legislation in any direction and preventing violent swings from left to right, it promotes stability in government. Second, by giving minorities a defensive shield against tyranny, it discourages the arising of tensions and situations which could, and probably would, lead to various and frequent forms of civil strife, perhaps actual civil war. This tradition is further proof of the infinite wisdom which our

Founding Fathers demonstrated in setting up our structure of government. They had only recently freed themselves from tyranny and oppression, and they realized tyranny in any form—whether it be by one man or an unrestrained majority—is ruthless and harsh. That is why they wrote into the Constitution in numerous places the requirement for a two-thirds—or three-fourths in some cases—rather than a simple majority vote before some types of

proposed actions could become binding on all the people. In setting up its rules of procedure, the Senate followed Thomas Jefferson's advice to protect the minority against the tyranny of the unrestrained majority. For many years there was no limitation at all on debate. In 1917, however, President Wilson, once an advocate of free debate, had his will thwarted on his armed neutrality ship bill by a vocal minority. Following this de-

bate, Rule 22 was approved. Since a determined effort is being made to apply the political whiplash against the South and our numbers are few in the Senate, we must use every means at our command to protect the interest of our people—and ultimately the interest of the nation. This is why we elected to talk rather than to surrender to tyranny. Our decision is beginning to pay dividends, and I hope we will ultimately prevail.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	I Corinthians	6	19-20
Monday	Romans	12	3-8
Tuesday	Luke	12	22-30
Wednesday	Philips	77	11-15
Thursday	Colossians	3	11-15
Friday	Mark	4	14-25
Saturday	I Corinthians	16	1-3, 12-14

It's a good idea to have a check up every so often. And the idea ought to be extended to our spiritual as well as our physical health. For instance, how much are we thinking about the truths our churches teach us? Do we understand God... His love for men... the sacrifice of Christ for our sins... the way of Christian living? And how much are we doing for God and our own souls? Are we worshipping every Sunday... rearing our children in the Faith... serving the Church and fellowmen according to our talents and physical strength? And how much are we giving for God to use? Do we promise Him a fair proportion of our income... do we set it aside regularly as a sum that belongs to God and to those who need our help... do we have the courage and faith to strengthen our Church by more generous support?
