C., and Judith Michaeline Riddle, Waterville. Johnnie Benjamin Johnson, Mountville, and Hattie Lee Grant, Mountville.

of maple trees. The disease is known as "Leaf Spot." I've noticed it on it usually attacks young trees. The maples growing wild in woodlands, disease usually is not serious enough to warrant control measures. However, Ralph has used lime-sulfur and captan as treatment. Alex Simpson and Jerome Finley of Cross Hill and Mountville, have a cracker-jack field of corn. In fact I haven't seen any better. It was planted real early. It's about knee high with a better than average stand. Marvin Nelson and J. G. Roy of the Oak Grove community, have used Dalapon in cotton fields to control Johnson grass. Dalapon will kill it. It also kills Bermuda. Often times a second application is necessary. Many thanks to M. S. Bailey and Son, Bankers, Clinton, for sponsoring my way on the Agri-Business tour of

the Mississippi Delta area June 6 through the 11th. The group will fly to Memphis, Tenn. We'll see some of the largest farm operations in the country, visit New Orleans and LSU experiment station. The district wool pool will be held at the National Guard Armory here in Laurens on June 2nd and 3rd. All wool must be brought in between the hours of 8:00 a. m. and 5:00 p. m.
