Social Security

Are you less than a year old or more than the proverbial three score and ten? If your work is covered by social security, it will make no difference anyway.

Many people believe that workers under age 21 and over 65 are not covered by social security and do not need social security cards. If your work is covered by the law, your wages or self-employment income must be reported for social security purposes. Your social security number must be shown on this report. And, regardless of your age, you're never too young or too old to be covered by social security or to have a social security number.

Southern Bell Installs 7,000,000th Telephone

Southern Bell's seven millionth telephone was installed Wednesday, June 22.

The telephone went into service at the University of Florida at Gainesville. Ben S. Gilmer, of Atlanta, Southern Bell president, made the official presentation to University President Dr. Wayne Reitz.

This latest million was added in record time. Company officials said the number of telephones increased from six to seven million in only 23 months compared to the 28 months it took to add the previous million.

"Gossip too often goes in one ear and out the mouth."

Southern Bell serves nine southern states—Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee. There are now 3,272 of these telephones in Clinton.

It was 50 years before Southern Bell reached its first million tele-

phones, and about 10 years ago, there were only three million Southern Bell Telephones. In the past decade, the number of telephones has more than doubled.

Southern Bell now operates in 1,117 exchanges and employs more than 65,000 people.
