SPITTING ON A STONE?

Ever try spitting on a stone to ease pain? Sounds foolish, nowadays. But a long time ago folks actually used this "remedy." We're lucky to be living in this age of modern medicine. Medical science has given us many wonderful pain relievers and other reliable, effective drugs. However, it's still not wise to use any medication indiscriminately. When you don't feel up to par, ask your physician's advice first. Then, if he prescribes medication, come to us. We'll fill his prescription promptly and carefully.
