the new Princess phone!

These are typical comments of folks about the latest thing in extension phones—the new and lovely little Princess set. It's so small and compact with a dial that lights up at night when you lift the receiver. When it's not in use the dial becomes a soft night-light that glows in the dark. The Princess comes in pretty, soft colors, too: pink, blue, turquoise, beige or white. Why don't you drop by to see our "Princess" next time you're in town.

Just a reminder — don't forget that the Clinton Community Chest drive is now in progress. Only you, and your generous donation, can help achieve the goal which will mean so much to so many. Open your hearts, and pocketbook, to this very worthwhile cause and be thankful YOU can give.

PIANOS in excellent condition. Tuned and ready to go. Terms easy, prices low. The Trading Post, Laurens, S. C.

FHA Broadens Lending Authority

The Farmers Home Administration's credit facilities to increase the farm portions of their total incomes. The regulation, which had limited credit assistance to farmers who spend most of their time farming, prevented some from obtaining the maximum income from their farms and from taking advantage of opportunities for industrial or other off-farm employment.

Other eligibility requirements remain unchanged, Mr. Mitchell said. Loan funds may be used to pay farm operating costs, purchase equipment and livestock, pay farm development costs, and refinance certain debts. The interest rate is 5 per cent.

Mr. Mitchell said the new regulations went into effect October 1. Previously, except in rural development counties, a farmer had to spend most of his time farming in order to qualify for a loan.

Experience gained in rural development counties has shown that many farmers who are regularly

employed off the farm can profitably use the Farmers Home Administration's credit facilities to increase the farm portions of their total incomes. The regulation, which had limited credit assistance to farmers who spend most of their time farming, prevented some from obtaining the maximum income from their farms and from taking advantage of opportunities for industrial or other off-farm employment.

Other eligibility requirements remain unchanged, Mr. Mitchell said. Loan funds may be used to pay farm operating costs, purchase equipment and livestock, pay farm development costs, and refinance certain debts. The interest rate is 5 per cent.

BUILD POND

E. F. and E. B. Coggins, father and son, farmers of the New Prospect section, have finished building another farm pond. This gives them a water source for the irrigation of a 30-acre young peach orchard which will come into full production within the next year or two. This make the third such pond they have built for the irrigation of peaches. The Soil Conservation Service assisting the district, made

the engineering surveys for these ponds. Cost-sharing payments through the local-ACP office were used to help defray the cost of construction.
